PUBLIC WORKS DEPARTMENT, CAPE OF
GOOD HOPE.

*General instructions for the guidance of Boiler and
Engine Attendants, who are required to make them-
selves thoroughly conversant with all matters therein
referred to and to carry out such instructions in their
entirety.*

1. *Filling the Boiler.*—The Boiler should be filled at the
manhole whenever possible, and should never be filled
through the safety-valve.

2. *Getting up Steam.*—Warm the Boiler gradually.

3. *Firing.*—Fire regularly. Keep the bars covered.
Keep as thin a fire as the quality of coal will allow. Do
not rouse the fires with a rake. Should the coal cake to-
gether run a slicer in on the top of the bars and gently
break up the burning mass.

4. *Cleaning Fires and Slacking Ashes.*—Clean the fires
as often as the clinker renders it necessary.

5. *Feed Water Supply.*—Set the feed valve so as to
give a constant supply, and keep the water varying from
½ inch above to ½ inch below the height indicated by
the water level pointer.

6. *Glass Water Gauges.*—Blow through the test tap at
the bottom of the gauge hourly as well as through the
tap in the bottom neck and the tap in the top neck twice
daily. These taps should be blown through more fre-
quently when the water is sedimentary and whenever the
movement of the water in the glass is at all sluggish.

Should either of the passages be choked, clean them
out with a wire.

Always test the glass water gauges thoroughly the first
thing in the morning before firing up.

7. *Blow-out Taps and Scum Taps.*—Open the blow-out
tap in the morning before the engine is started and at
dinner time when the engine is at rest. Open the scum
tap when the engine is running, before breakfast, before
dinner and after dinner. If the water be sedimentary
run down half an inch of water at each blowing. If not
sedimentary merely turn the taps round. See that the
water is ½ inch above the height indicated by the water
level pointer, at the time of opening the scum cock. Do
not neglect blowing out for a single day, even though
anti-incrustation compositions are put into Boiler.

8. *Safety-valves.*—Lift each safety-valve by hand in
the morning before setting to work, to see that it is free.

When the Boiler is laid off examine the levers and see
that they are free, and that they give the valve the full
rise.

9. *Shortness of Water.*—In case the Boiler should be
found to be short of water, draw the fires if practicable,
but not too quickly, beginning at the front. In some
cases it may be more convenient to smother the fires
with ashes or with anything else ready to hand.

10. *Use of anti-incrustation composition.*—Do not use
any of these without the consent of a fully-experienced
Engineer. If used never introduce them in heavy charges
at the manhole or safety-valve, but in small daily quanti-
ties along with the feed water.

11. *Emptying the Boiler.*—Do not empty the Boiler
under heavy steam pressure. Draw the fire and then
work the engine until the steam is about 10 lbs. pressure,
then open the blow-off cock halfway, allowing the water
to blow out gently.

If a Boiler is blown off under steam pressure the plates
are left hot.—The hot plates harden the scale.

Cold water dashed on hot plates will cause severe
straining by local contraction, sometimes sufficient to
fracture the seams.

12. *Cleaning out the Boiler.*—Clean out the Boiler at
least every month and oftener if the water is sedimentary.
Remove all scale and sediment as well as the flue dust
and soot. Show the scale and sediment to the Engineer
or Inspector, and see that the tubes have been well
brushed. Further, see that the passages in the glass
water gauges and in the blow-out pipe, feed pipe and
scum pipe are free. Take the taps and feed valve to
pieces, examine, clean and grease them, and if necessary
grind them in with a little fine burnt sand. Examine
the fusible plugs.

13. *Preparation for entire examination.*—Have the
Boiler cooled and carefully cleaned out as explained
above. Show both scale and sediment.

14. *Fusible Plugs.*—Keep these free from soot on the
fire side and from incrustation on the water side. Change
the fusible plug once a year at the time of preparing for
the annual entire examination.

15. *General keeping of Boiler.*—Polish up the brass and
other bright work in the fittings.

WATER BORING UNDER GOVERNMENT SUB-
SIDY: NOTICE TO CONTRACTORS.

THE attention of all Water Boring Contractors is
invited to the subjoined copy of a memorandum
prepared by the Chief Engineer of the Public Works
Department containing general instructions for the guid-
ance of Boiler and Engine attendants in charge of
machinery used in connection with boring operations
carried out under Government Subsidy.

With the view of guarding against danger and of pre-
venting accidents, Contractors are earnestly requested to
observe these instructions and to do everything that
can be done to maintain the Boilers and Engines in an
efficient state of repair.

While specially counselling the taking of all reasonable
precautions with reference to the care and management
of machinery employed in boring under Subsidy, it must
be distinctly understood that the Government cannot
assume the slightest responsibility for any accident that
might arise through the default or neglect on the part of
any Contractor in the carrying out of these instructions.

C. REYNOLDS,
for Secretary for Public Works.

5. MINISTERIAL DIVISION OF COMMISSIONER OF PUBLIC WORKS.

16. *Priming*.—Priming consists of the lifting of the water in the Boiler into the steam and is caused by dirty water or irregular firing. The best way to prevent it is to lower the water in the Boiler and close the damper until the Boiler is quiet, then see that the firing is regular and the engines worked at an even speed.

REMARKS.—Shortness of water generally arises from neglect of the Boiler Attendant and ought not to occur. It is by no means easy to give precise instructions as to what should be done to put things right when shortness of water has occurred so as to meet every case. Drawing the fires when the water is out of sight must always be a matter of more or less risk, as there is a difficulty in determining how far and for how long a time the furnace crowns have been laid bare. If it is known that the water has only just passed out of sight, say from the ticking fast of the blow-out tap when attempting to shut it, the fires may be drawn in safety. But if an empty gauge glass has been mistaken for a full one and the Boiler has been worked on in this state for some time, the case will be different.

Thus Boiler Attendants must remember that shortness of water endangers other persons' lives as well as their own.

The best advice that can be given to Boiler Attendants with regard to shortness of water is "Don't let it occur, keep a sharp look-out on the water gauge."

General Instructions for the guidance of the Engine Attendant.

1. The Attendant should make himself thoroughly conversant with the Boiler and Engine and should be supplied with the Diameter and Stroke of the Engine cylinder, the number of revolutions per minute, working pressure of steam in the Boiler and all other necessary particulars.

2. *Starting the Engine*.—Before starting the Engine, the Attendant must see that everything is in working order, the oil lubricators fitted, the bearings and gland packings in good order, and the cylinder cocks open.

3. *Repairs, etc.*—The Attendant must take notice that the Engine is working regularly, and in the case of any unequal working he must report the same.

Any small defects he may have noticed should be made right at once by himself.

4. *Cleaning*.—The Engine should be thoroughly cleaned down once a week, care being taken that no dust or dirt is allowed to collect about any part at any time.

10. All persons employed in the Magazine shall cease work and leave the building during a thunderstorm.

11. If the Magazine be of sufficient size to be entered, each person employed therein must be provided with a pair of special Magazine boots, without nails, or india-rubber or felt overshoes, which, when not in use will be kept in a clean place in the Magazine at the entrance. No person shall be allowed to enter without putting on these overshoes, and they must be taken off at the point of leaving the building.

Bare feet are for the purpose considered equivalent to wearing Magazine shoes, but care must be taken that grit or sand is not thereby conveyed into the Magazine.

12. The Licensee shall cause the Magazine to be kept scrupulously clean and periodically washed out, and shall provide means for so doing. On each occasion that the Magazine is opened for the receipt or delivery of explosives, it must, when such work is finished, be swept out with a broom kept expressly for the purpose.

13. No exposed iron or steel in any form whatever shall be allowed in the Magazine. For the purpose of opening or closing cases and boxes, a wooden wedge and mallet, or a brass or copper chisel and hammer, shall be provided. Any other tools or implements which may be necessary must be of wood, copper or brass.

14. Cases or boxes of explosives shall be handled with the utmost care, and shall under no circumstances be thrown violently down, or dragged along the floor.

15. If it be necessary to open or close a case of explosives, it must be done outside the Magazine, on a sheet of tarpaulin or other similar material which will prevent the contact of the explosives with grit or sand.

16. In stacking cases of explosives, the following conditions shall be observed:—

(i) The cases shall not, on any account, be stacked to a greater height than eight feet.

(ii) They shall be stacked securely and solidly, in such a manner that they will not be liable to fall over.

(iii) A clear space of a few inches shall be left between the wall of the Magazine and the cases, to allow of the free circulation of air, and prevent injury from damp.

(iv) If the Magazine be large enough to admit of it, a centre passage way must be left between the stacks.

(v) The numbered ends of the cases must be placed so as to be easily read for purposes of inspection.

17. Where a lobby is provided to the Magazine, it shall be used for the storage of tools, broom, overshoes, etc., but explosives must not under any circumstances be stored in it.

18. A book or board shall be kept in the Magazine at the entrance, showing the stock contained, and every case placed in, or taken out, shall be recorded.

19. The Licensee shall see that the copy of these regulations supplied with the Licence is posted up in a prominent position in the Magazine.

20. The foregoing conditions shall not be avoided by reason of a change of owners or lessees of the Magazine. Notification of any such change, together with the Licence, must be forwarded at once to the Colonial Secretary, through the local Magistrate.

No. 125, 1907.

5. MINISTERIAL DIVISION OF COMMISSIONER OF PUBLIC WORKS.

[269.]

[1907.]

Office of the Commissioner of Public Works,
Cape Town, 12th March, 1907.

THE subjoined Memorandum on the Irrigation Act No. 32 of 1906, is published for general information.

C. REYNOLDS,
for Secretary for Public Works.

IRRIGATION ACT No. 32 OF 1906.

The main object of the Act passed during the last Session of Parliament and assented to on the 21st August, 1906, was to consolidate with such amendments as experience had proved necessary the statutory laws relating to Irrigation.

The Act is divided into eight parts:—

- Part I.—Preliminary.
- Part II.—Utilization of streams.
- Part III.—River Districts and Boards.
- Part IV.—Irrigation Districts and Boards.
- Part V.—Water Courts.
- Part VI.—Servitudes.
- Part VII.—Irrigation Loans.
- Part VIII.—General.

PART I.—PRELIMINARY.

Under this part provision is made for the repeal of previous Irrigation Acts, and for all Regulations issued under previous Acts remaining in force until revoked or replaced by Regulations under this Act.

The following words are also defined:—"Minister," "Stream," "Perennial Stream," "Intermittent Stream," "Owner," "Riparian Land or Property," "Riparian Owner," "District," "Board," "Government Irrigation Work," "Person," "Regulation," "Director," "Superior Court."

As it will be necessary hereafter to refer to the Regulations regarding Perennial and Intermittent Streams the full text of the definitions is subjoined.

"*Perennial Stream*" means a natural stream which in ordinary season flows for the greater part of the year in a known and defined channel, and the water whereof is capable of being applied to the common use of the riparian proprietors. Provided that a stream which in part only of its course satisfies these conditions shall be deemed to be a "perennial stream" in so far only as regards such part.

"*Intermittent Stream*" means a stream which is not a perennial stream, and into which the natural surface drainage waters flow from the lands of more than one riparian property. Provided that a stream shall not be deemed to be an intermittent stream above the highest point of its course at which the natural surface drainage waters from the lands of more than one riparian property unite, or for such lower portions of its course as satisfy the conditions of a perennial stream.

From the above it will be seen that these two classes of streams require different methods of treatment for the utilization and apportionment of their waters.

PART II.—UTILIZATION OF STREAMS.

This part of the Act deals principally with the use of water of perennial and intermittent streams, permits for use of surplus water of intermittent streams, and the diversion of surplus water of a perennial stream across a watershed. The use of water of perennial streams has been judicially decided upon from time to time and the definition in the Act quoted in the first part practically follows the judgments of the Supreme Court.

Owing to the circumstances of the country, however, a stream might be perennial for a certain portion of its course and nonperennial in another portion, hence it has been provided that a stream which in part only of its course flows for the greater part of the year in a known and defined channel and the water whereof is capable of being applied to the common use of riparian proprietors shall be deemed to be a perennial stream in so far only as regards such part.

Under Section 6 of the Act it is stipulated that every riparian owner is, subject to all existing rights of other persons and to the provisions of this Act, entitled to a reasonable use for purposes of irrigation of the water of a perennial stream with reference to which his property is riparian.

Until the passing of this Act there was practically no protection afforded by law to user of flood water in the Cape Colony or to people who dealt with intermittent

streams. As has been pointed out the conditions in respect of utilising the water of a river which is in flow for only thirty or forty days are quite different from those of a river which is in flow throughout the greater part of the year. Any artificial channel which is in flow for a very short period must, in order to irrigate the same area as one which is almost constantly in flow, be made of much larger carrying capacity and must be more costly to construct. As a rule storage works are also necessary to utilize the water of an intermittent stream. The rights of riparian proprietors to the water of intermittent streams are now clearly laid down in Section 7 of the Act.

Subject to certain provisos, and to the existing rights of others, every riparian owner is entitled to use the water of an intermittent stream flowing on to or over his property, by diverting it on to his riparian land for the irrigation thereof; and is also entitled to impound and store such water for irrigation and for domestic, agricultural, manufacturing and drinking purposes. In the case of both perennial and intermittent streams the quantity which an owner is entitled to use is subject to appeal to the Water Courts.

It must, however, clearly be borne in mind that under the provisions of the Act there can be no interference with the rights of any person, who by grant, servitude, or prescription has acquired any right to the water of an intermittent stream.

Under Section 9 a Water Court is entitled to grant permits for the use on non-riparian land of the surplus water of an intermittent stream after the requirements of irrigation, domestic, agricultural, manufacturing and drinking purposes on the riparian land have been provided for.

Special attention is invited to Section 10, which deals with a provision for taking water from one catchment area to another. Water cannot, however, be taken away to the detriment of the rights of riparian owners, and the Water Court on application must determine the point at which the diversions shall take place, the line of passage for the conveyance of the water authorised to be diverted, the nature of the works to be constructed for the purpose, and the amount of compensation, if any to be paid to the proprietor or proprietors on or over whose property the diversion and conveyance takes place.

Under Section 12 an owner is allowed permission to have access to a stream even if its course has altered from natural causes, so that he may water his stock and prevent his riparian rights being interfered with.

Section 15 deals with surveys and investigations, and provision is made for the establishment of gauge posts for recording the variations in the level of water in the principal streams, the preparation of maps of different streams, the collection of facts and the prosecution of surveys in a systematic manner, the preparation of detailed surveys, plans and estimates for Government Irrigation Works, engineering assistance to Water Courts, River Boards and persons in dispute as to the use of water, the examination of lands, plans, specifications and estimates and reports connected with any irrigation scheme for which application has been made for a Government loan and investigations as to:—

1. The working and results of the law with regard to irrigation.
2. The use and value of water in and for purposes of irrigation.
3. The use and local suitability of different kinds of power and machinery for lifting water for irrigation purposes.

PART III.—RIVER DISTRICTS AND BOARDS.

The necessity has long been recognised of having some control over the distribution of water of perennial and intermittent streams, and under this part of the Act the management and control of the rivers and streams of the Colony, and supervision of the distribution in accordance with established rights of their waters are now placed in the hands of local elected bodies called River Boards, assisted in technical matters by professional advice, provided at the cost of the Government. All orders or acts of these Boards are subject to appeal to the Water Court for whose guidance the Governor, with the approval of the Supreme Court or of Parliament, may lay down the principles and considerations upon which the waters of perennial and intermittent streams should be apportioned. The constitution of River Districts is practically on the lines laid down in the formation of Irrigation Districts under the old Act No. 8 of 1877.

In order to establish a River Board any three or more riparian owners, entitled to use the water of a stream or streams and owning not less than one-tenth part in area of the riparian land irrigated from or of the pro-

erties riparian to the stream or streams within the limits of the proposed district, may present a petition in writing to the Commissioner of Public Works for the constitution of a River District. The fact of the petition having been presented must be notified by the Minister in the *Gazette* and in some newspaper circulating within the proposed district.

As soon as any petition is received an Engineer will be sent to enquire into the subject matter of the petition, and as soon as may be will report the result of his enquiry to the Minister, who, before proclaiming the area a River District must satisfy himself that the owners of more than two-thirds of the total area of the properties riparian to the streams within the proposed District, or the owners of more than two-thirds of the riparian land irrigated from the streams within such properties, who shall also in each case represent more than two-thirds of the total number of owners, are in favour of the creation of the district.

The boundaries of a River District may be altered from time to time by procedure similar to that necessary in the formation of a new district.

The superintendence of Acts relating to the conservancy of streams and the storage, diversion and use of their waters in a River District, is vested in a River Board consisting of not less than three and not more than eleven as the Governor may fix by proclamation in the *Gazette*.

A River Board as soon as possible after election is required to prepare a schedule of the rateable area of such property in the district, regard being had to the share or volume of water of the streams within the district which the owner has a right to use on the property, and to the number of morgen which could ordinarily and with due precaution against waste be efficiently irrigated in the course of a year by that share or volume irrespective of the number of morgen actually irrigated.

The basis of voting for members of a River Board is:—

- (a) The rateable area of the property, if the rateable areas of the district have been determined.
- (b) The possession of riparian property and its valuation respectively if the rateable areas have not been determined.

The valuation of a property is the latest valuation of the property for Divisional Council purposes in pounds sterling.

Every owner of property of which the rateable area is not less than one morgen may vote at an election of members of the Board. Provided that:

- (1) If a property is owned jointly by two or more persons each of whom does not in fact occupy a separate and defined portion of the property, then if the total number of morgen in the rateable area of the property is not less than the total number of such persons, each of them may vote in respect of a rateable area equal to the total rateable area of the property divided by the number of persons, otherwise only so many of them may vote as there are morgen in the property; but if the rateable areas have not been fixed, if the total valuation of the property divided by a hundred is not less than the total number of such persons, each of them shall be entitled to vote on the basis of a property valuation arrived at by taking the total valuation of the whole joint property and dividing it by the number of owners; otherwise only so many of them may vote as there are hundreds of pounds in the property valuation, and in either case the owners shall determine amongst themselves and appoint, in writing, such of them as are thus capable of voting.
- (2) If the property is owned by Government or a corporate body the person duly authorised under a special power of attorney from the Minister or body respectively shall be entitled to vote in respect of that property, and he shall vote as if he were the owner and on the same scale.
- (3) A person entitled to vote in respect of property situated in a sub-district shall in respect of that property vote at the election of members for that sub-district only.
- (4) No person shall be entitled to vote if and while his rates under this Part are due and in arrear for three months or more.

Every person exercising his right to vote shall vote upon the following scale if the rateable area is the basis of voting:—

He shall have one vote for every five morgen or part of five morgen of irrigable area in respect of which he is entitled to vote up to 50 morgen, and thereafter an additional vote for every additional 25 morgen; or if the valuation of the property is the basis of voting he shall

have one vote for every £500 or part of £500 in the valuation of the property in respect of which he is entitled to vote.

Whenever it appears that the order or act of any River Board is likely to affect detrimentally the rights to property within the District of some other River Board or Boards or whenever it may appear necessary that some act should be performed relating to more than one River District, the Governor may appoint a Special River Board consisting of an equal number of members nominated by each Ordinary River Board concerned and of one member to be appointed by the Governor; provided that in no case shall the total membership of Special River Board exceed seven.

- (a) A River Board has no power to institute or defend any action involving a declaration of rights without the consent of two-thirds of the riparian owners within the district at a meeting specially called for that purpose.

Any person aggrieved by an order or act of an Ordinary or Special River Board may make application for relief to a Water Court or other competent Court.

- (b) A River Board may with the consent of the rate-payers given at a meeting specially convened for the purpose, levy rates, to be called River Rates, for defraying all expenses incurred or to be incurred by the Board.

The rates shall be levied upon every property having a rateable area in the District, and shall be payable by the owner of the property.

A River Board may with the consent of three-fourths of the owners of rateable property in the district who shall be owners of not less than two-thirds of the rateable area therein, present a petition in writing to the Governor praying that such Board be vested with all or any of the powers of an Irrigation Board.

The Commissioner of Public Works may pay any expenses incurred by a River Board for the purposes of the Act during a period of twelve months from the creation of the district, provided that the total amount so paid shall not exceed one hundred pounds sterling, and an estimate of the expenditure which the Board proposes to incur shall first be approved by the Minister.

The Petition for the constitution of a River District should be substantially in the form subjoined hereto. All necessary forms will, however, be promulgated under the Regulations which are now under consideration:—

Application for constitution of River District.

To the Honourable
The Commissioner of Public Works,
Cape Town.

We, the undersigned riparian owners, entitled to use the water of the stream(s) or river(s), deeming it to be expedient that there should be a combined system of control over such stream(s) or river(s), pray that the area hereunder described containing the stream(s) or river(s), together with the properties riparian thereto may be constituted a River District.

We are owners of at least one-tenth part in area of the riparian land irrigated from or of the properties riparian to the aforementioned stream(s) or river(s).

The proposed District is bounded on the North by North-east by East by West by South-east by and South by

A notice in the subjoined form will then be published in the *Gazette*:—

Proposed River District.

Notice is hereby given, in terms of Section 16 of Act No. 32 of 1906, that a Petition has been presented to the Commissioner of Public Works, a copy of which is set forth hereunder.

PART IV.—IRRIGATION DISTRICTS AND BOARDS.

There is practically nothing new in this part of the Act. The provisions of Act No. 8 of 1877 have been followed and have been simplified where experience has proved necessary.

5. MINISTERIAL DIVISION OF COMMISSIONER OF PUBLIC WORKS.

Any three or more owners of land, who deem it expedient that there should be a combined system of irrigation, and that recourse should be had to artificial means of storing or supplying water, may present a petition in writing to the Commissioner of Public Works praying that the area be constituted an Irrigation District. The persons signing the petition must be owners of not less than one-tenth part of the land within the area. The petition must state the boundaries and approximate extent of the proposed irrigation district, and the nature of the works proposed to be executed. The fact of the petition having been presented will be notified in the *Gazette* and in a newspaper circulating within the proposed district. After the petition has been received an Engineer is despatched to the District to make enquiry into the allegations contained in the petition, and to determine the approximate extent of land irrigable by the proposed work on each property in the proposed District and on any other property which in his opinion should be included. After inquiry a report is presented to the Minister who may, if he thinks fit, and if satisfied that the owners of not less than two-thirds of the total extent of the irrigable areas within the proposed district are in favour of the creation of the District, recommend the Governor to proclaim the area an Irrigation District.

The boundaries of a District may be altered from time to time after an inquiry has been made by an Engineer and the consent of owners obtained as if the properties were to be proclaimed a district.

The performance of all acts, matters and things relating to the purchase, construction and maintenance of the necessary reservoir or other irrigation or drainage works is vested in an Irrigation Board consisting of such number of members, not less than three and not more than seven as the Governor may fix by proclamation.

The provisions relating to the qualifications of voters and scale of voting and the framing of the voters' list are practically the same as for River Boards. In the case of Irrigation Boards, however, the rateable area is the only basis of voting and the maximum number of votes allowed to any voter is limited to ten for any single candidate.

An Irrigation Voters' List must be prepared and annually revised and a copy of the List must be kept at the Secretary's Office for inspection, free of charge, by any person interested.

An Irrigation Board may levy rates to be called irrigation rates for defraying all expenses incurred or to be incurred by the Board, and such rates must be levied annually by the Board at a uniform sum per morgen of irrigable area. A schedule of the irrigable area of each property within the District should be prepared by the Board as soon as possible after its election.

An Irrigation Board may raise by way of loan any money that is required by the Board for the purposes of the Act. Before a proposal for the raising of a loan is laid before any meeting of the Board, not less than twenty-one days' notice of the proposal must be given to each member, and no loan can be raised except under a resolution of the Board at which two-thirds at least of the members are present.

A Board may, with the consent of two-thirds of the owners of rateable property within the area of the Board present a petition in writing asking to be vested with any or all of the powers of a River Board.

The following Irrigation Districts, established under the Act of 1877 are still in existence:—

Breede River (Robertson) proclaimed 17th January, 1898.

Nonna River (Worcester), proclaimed 12th May, 1905.

Nuy River (Worcester), proclaimed 31st May, 1905.

All works undertaken by these Boards have been carried out by means of loans under the Irrigation Acts.

The forms of application for the constitution of an Irrigation District and for a Government Loan are attached.

Notice is hereby given, in terms of Section 43 of Irrigation Act No. 32 of 1906, that a Petition, copy of which is set forth hereunder, has been presented to the Commissioner of Public Works.

PART V.—WATER COURTS.

Water Courts were first established under the provisions of Act No. 40 of 1899, and practically few changes have been introduced under this Act. The more important amendments relate to the original jurisdiction of Water Courts in water disputes (Section 68), the appointment of Special Water Courts (Section 66), the submission of matters in dispute to the Director prior to being brought before the Water Courts, and the powers of Water Courts in granting applications for

- (a) Servitudes of aqueduct.
- (b) Servitudes of storage.
- (c) Servitudes of abutment.

dealt with in Part VI. of the Act.

The undermentioned Water Courts have been established under the provisions of Act No. 40 of 1899 and Proclamation No. 53 of 1903, viz. :—

1. No. 144, 1903, Uniondale Area and Water District.
2. No. 188, 1903, Oudtshoorn Area and Water District.
3. No. 189, 1903, Stutterheim and Komgha Area and Water District.
4. No. 195, 1903, Humansdorp Area and Water District.
5. No. 231, 1903, Bedford, Fort Beaufort, Stockenstrom and Victoria East Area and Water District.
6. No. 267, 1903, King William's Town Area and Water District.
7. No. 280, 1903, East London Area and Water District.
8. No. 49, 1906, Willowmore Area and Water District.
9. No. 82, 1906, Kimberley and Barkly West Area and Water District.
10. No. 253, 1906, Worcester and Robertson Area and Water District.
11. No. 254, 1906, Prince Albert Area and Water District.
12. No. 250, 1906, Laingsburg Area and Water District.
13. No. 349, 1906, Ladismith Area and Water District.
14. No. 464, 1906, Barkly East Area and Water District.
15. No. 412, 1906, Riversdale Area and Water District.
16. No. 413, 1906, Swellendam Area and Water District.

Provision is now being made for the establishment of Water Courts in the several Districts of the Colony.

The first appeal case from the decision of a Water Court was from the District of Ladismith. The application was made for a reasonable apportionment of the water of the perennial stream called The Hoeko. There was an appeal to the Supreme Court from the judgment of the Water Court of Ladismith which was dismissed with costs, and the opening remarks of the Chief Justice in giving judgment are interesting, and are quoted in full. He said :

" This is the first case of an appeal from a decision of a Water Court under the Act of 1899, and I am bound to say, after a careful perusal of the proceedings, that this Water Court has conducted the proceedings in a calm, judicial, and, in every sense, satisfactory way. Some doubt was expressed at the time as to whether Water Courts would be a success or not, and I must say that if all Water Courts hereafter should conduct their proceedings upon the model of this Water Court, there would be every reason to be satisfied with the Act. My own view was that it was a pity that the old Landdrost and Heemraden were abolished, because they worked satisfactorily. They were conversant with the local circumstances, and they were in a far better position to do justice between the parties than a judge trying the case hurriedly on circuit, or even the Supreme Court, hearing the case here at greater length. I say then that this Water Court has, it appears to me, fairly taken the place of the old Landdrost and Heemraden, and has conducted the case very well."

The Governor may appoint in any area a Water Court for the purposes of hearing and determining disputes in connection with the use and appropriation of water. Under the Act of 1899 the boundaries of the Water District usually coincided with the boundaries of some Magisterial District.

A Water Court consists of a Resident Magistrate having jurisdiction over the whole or some portion of the Water Court District, who sits with two assessors selected from a list of Water Court Assessors, not less than 10 or more than 25, selected after consultation with the Divisional Council of every Division, any part of which is situated in the District.

Every Assessor must own and occupy land and must have cultivated his own land in the District, must possess the qualifications necessary for a Divisional Councillor, and must not be less than thirty years of age.

The Assessors are selected by the Registrar in accordance with the Regulations, and may be objected to on any one or more of the following grounds :—

1. Consanguinity of affinity within the fourth degree to any of the parties, or to any person who has a pecuniary interest in the result of the application.
2. Having directly or indirectly, an interest in the result of the case.
3. Having previously deliberately expressed an opinion as to the merits of the application.
4. Personal enmity between one or each of the Assessors and any party.

Any objections with supporting affidavits are then laid before the Magistrate of the Water Court District, who decides either to allow or disallow the objections, and his decision is final.

A Special Water Court is established for the purposes of hearing matters or disputes relating to two or more separate Water Court Districts.

In order to avoid expense, inconvenience and delay, the clause giving Water Courts original jurisdiction in water disputes was specially inserted in the Bill, and as it is of such importance the full text is given below :—

" Save with the consent of all parties to any dispute as to water-rights, no Court other than a Water Court shall have original jurisdiction in the hearing and settlement of such dispute : and no process to summon any person to answer any claim in a suit involving a question of water-rights shall issue out of any of the superior Courts except in cases where the defendants have consented in writing thereto : provided that nothing in this section contained shall affect the jurisdiction conferred by any section of this Act in any of the superior Courts, in appeal or otherwise, or in cases where the aforesaid consent has been obtained."

Apart from the question of granting applications for servitudes dealt with in the next part and the matters already referred to the more important duties and powers of Water Courts are :—

1. To grant permits for the use of the water of intermittent streams.
2. To determine on application the place or places either upon land riparian to a stream or upon any land higher up in the course of a stream at which an owner shall be deemed to have the right to the use of the water and the nature and extent of such use having due regard to the rights of other owners.
3. On application to investigate, decide and record in the case of any stream whose character has not been defined by a competent court whether such stream is perennial or intermittent. An appeal to a superior Court from such decision may be prosecuted within three months at the instance of an interested person.

PART VI.—EXPROPRIATION OF LAND AND ACQUISITION OF SERVITUDES.

Under Sections 82, 83 and 84 land may be expropriated under certain restrictions for a State irrigation work or within an Irrigation District for the work of an Irrigation Board.

Land may not, however, be expropriated for private Irrigation Works.

Sections 86 to 92 deal exclusively with the acquisition of Servitudes. Any person who, having a right to or to the use of water, or being entitled to superintend and control the use of water, wishes to employ it, or to increase its employment for irrigation use, or the use of stock or any other useful purpose is entitled to claim under the Act the following servitudes temporarily or in perpetuity, namely,

- (a) Servitude of aqueduct.
- (b) Servitude of storage.
- (c) Servitude of abutment.

5. MINISTERIAL DIVISION OF COMMISSIONER OF PUBLIC WORKS.

Servitude of Aqueduct consists of the right to occupy for and in connection with the passage of water, such land the property of another, as may be necessary for the purpose, including the right to construct such works as are necessary for the passage over, under or alongside of another irrigation work.

Servitude of Storage consists of the right to occupy, by flooding with water the land of another by means of a dam constructed on the land of the person claiming the right. The servitude shall include the right of passage over the servient tenement along the margin of and throughout the area subject to the servitude, for purposes of maintenance of works, cleansing, clearance of silt and brushwood or litter, or any like purposes necessary for the due enjoyment of the servitude.

Servitude of Abutment shall consist of the right to occupy by a dam or weir, the bed of a river and the banks adjacent thereto, the property of another, as may be necessary for the dam or weir.

A claimant to any of these servitudes must give notice in writing to the owner of the land over which he proposes to acquire the servitude, describing the line of passage along or the locality upon which and the mode in which he proposes to conduct, store or divert water, or construct works, the works which he proposes to construct upon the land, the compensation which he offers and the period of time during which he wishes to enjoy the servitude.

If the owner does not within one month after the service of the notice agree to the proposals of the claimant, the claimant may apply to the Water Court for the settlement of the matters in dispute between him and the owner.

The Water Court may grant the application with modifications and subject to such conditions as it deems equitable, award the compensation to be paid for the right of servitude, if the land is leased determine the compensation to be paid to the lessee for any injury which he may sustain by the exercise of the servitude, if the land is mortgaged determine the share to be paid to the mortgagee, in reduction of his mortgage, or refuse the application.

In fixing the amount of compensation, the Water Court may deduct such amount as it thinks reasonable in consideration of the advantages which the owners or lessee may derive by reason of the servitude.

The compensation for a temporary servitude shall be an annuity equal to the rental value, as nearly as can be ascertained of the land to be actually occupied by the work when completed, together with yearly compensation for any actual inconvenience and loss that may be exercised by the servitude.

The compensation for a permanent servitude shall be a lump sum equal to the average market value, as nearly as can be ascertained of the land to be actually occupied by the work together with an annuity as compensation for actual inconvenience and loss that may be suffered by the exercise of the servitude, or in lieu of this annuity, an amount equal to twenty times the annuity.

A temporary servitude may be converted into a permanent servitude by the applicant paying to the owner of the servient tenement such compensation as may be agreed upon, and if compensation cannot be agreed upon, application may be made to a Water Court for the determination of the compensation.

A servitude lapses if the work proposed to be executed is not completed and the water utilized within three years from the date of the order of or the period fixed by the Water Court.

PART VII.—IRRIGATION LOANS AND GRANTS IN AID.

Loans may be granted to Irrigation Boards or to private owners of land.

The form of application for a loan by an Irrigation Board has been dealt with in Part IV. of the Act. The security to be offered by a Board must be the rates leviable under the Act, or such other security as may be approved by the Governor.

Loans to private owners may be conveniently divided into three classes:—

- (a) Loans not exceeding £500.
- (b) Loans exceeding £500 and up to £25,000.
- (c) Loans exceeding £25,000.

The security to be offered by a private owner must be a mortgage on immovable property. Under the old Irrigation Acts the Government could only grant the loan upon the security of the land improved. Under this Act collateral security may be accepted and any immovable property owned by an applicant may be accepted as security for a loan.

Loan not exceeding £500.

When the loan does not exceed £500, and the amount of the loan together with any existing mortgages is under three-fourths of the Divisional Council valuation of the property, an Engineer's certificate stating that the work has been carried out in accordance with approved plans and specifications is unnecessary.

The Minister may, however, require a valuation made by two sworn appraisers instead of the Divisional Council valuation.

If the enhanced valuation of the land is taken into consideration approved plans and specifications are necessary and the amount of the loan together with existing mortgages cannot exceed two-thirds of the valuation.

Loans exceeding £500 and up to £25,000.

When the application for a loan exceeds £500, or the enhanced value of the work is taken into consideration, the Director is called upon to report to the Minister that the applicant proposes to construct the works in a sufficiently substantial and durable manner, and in accordance with plans, estimates and specifications approved by him.

Loans exceeding £25,000.

If the application for a loan exceeds £25,000 and is for a longer period than 30 years the previous sanction of Parliament is necessary, in addition to the Director's report that the applicant proposes to construct the works in a durable manner and in accordance with plans, estimates and specifications approved by him.

The period of 30 years named in Section 103 (2) of the Act for the redemption of the loan is the maximum period that can be granted without the sanction of Parliament, and would be allowed only on the most permanent class of works such as masonry, dams, and weirs, earth works, canals, etc. The time would be shorter for less durable works according to their nature and probable durability.

In the case of pumping or other machinery it would generally be from 10 to 15 years only.

Under Section 111 of the Act the Commissioner of Public Works is empowered to fix special rates for the carriage on Government Railways of such goods or materials as are to be used for the purposes of irrigation within the Cape Colony.

In this connection attention is invited to Government Notices No. 949 of 1904 "Railway Rebate upon Carriage of materials used in irrigation works," and No. 17 of 1907, "Proposed Railway Rebate on oil used as fuel for irrigation purposes."

The subjoined table shows the annual sum payable in half-yearly moieties, required to repay a loan of £100 with interest at 3½ per cent. within the following periods:

EDWARD THE SEVENTH, by the Grace of God, of the United Kingdom of Great Britain and Ireland, and of the British Dominions beyond the Seas, King, Defender of the Faith, Emperor of India.

To CHRISTO CHRISTOPHIDES, recently carrying on business as a General Dealer, at East London.

GREETING!

WHEREAS upon the Petition of ELLEN LOUISE BIGGS, a Widow (hereinafter called the 1st Plaintiff), SPIROS HALMANDARIS (hereinafter called the 2nd Plaintiff), and CARR BROS. & ASH, LTD. (hereinafter called the 3rd Plaintiffs), all of East London, it appears to Us that you are lawfully and truly indebted unto and on behalf of:—

(a) The 1st Plaintiff in the sum of £150 sterling upon a certain mortgage bond passed by you in her favour on the 26th day of July, 1906, thereby specially hypothecating certain Lot No. 112, a piece of ground adjoining Lot No. 112, Lot No. 6 and Lot No. 69, near the village of Berlin, in the Division of King William's Town, which said security the 1st Plaintiff values to the extent of £150 sterling.

(b) The 2nd Plaintiff to the full and entire sum of £300 sterling, being the amount due to him under and by virtue of a certain third mortgage bond for the sum of £600 passed by Defendant to and in favour of the 2nd Plaintiff and one ELETERIO CHRISTOPHIDES on the 22nd day of December, 1906, whereby the following properties were specially hypothecated, to wit:—Lot No. 112; a piece of ground adjoining Lot No. 112; Lot No. 64 and Lot No. 69, near the village of Berlin, in the Division of King William's Town; which said mortgage the 2nd Plaintiff values at the sum of one hundred and fifty pounds sterling.

(c) The 3rd Plaintiff in the full and entire sum of £44 17s. 6d., being an amount of £42 7s. 8d. for goods sold and delivered by Plaintiff to Defendant, for which said sum of £42 7s. 8d. 3rd Plaintiff obtained judgment against Defendant on 18th January, 1907, in the Court of the Resident Magistrate for the District of King William's Town, and caused a writ to be issued out of the said Court against the goods and chattels of Defendant on the 19th January, 1907, as also for the recovery of the sum of £2 9s. 10d., being taxed costs and charges incurred by Plaintiff in the said proceedings, making in all the first mentioned sum of £44 17s. 6d., which writ, being duly entrusted to the Messenger of the said Court for execution, was returned by him with a "nulla bona" endorsement.

And whereas it further appears to Us that the said Defendant did in or about the month of December, 1906, clandestinely depart from his dwelling-house, and is said to have left the Colony, thereby intending to defeat or delay his creditors in obtaining payment of their debts, and thereby committing an act of insolvency.

And further whereas it appears to Us that the said Defendant did fail to satisfy the judgment of 3rd Plaintiffs hereinbefore set forth, given against him on the 18th January, 1907, in the Court of the Resident Magistrate for the District of King William's Town, he did thereby also commit an act of insolvency.

And whereas it further appears to us of record that all the Plaintiffs aforesaid did petition the Judges of the Court of the Eastern Districts of the Colony of the Cape of Good Hope at Grahamstown for the sequestration of the Defendant's Estate as insolvent, for the benefit of the creditors thereof, and that on this the 8th day of March, 1907, the Honourable John Gilbert Kotze, Judge President of the said Court, did, by an order under his hand granted in Chambers and bearing date this day, order the estate of the said Defendant to be placed under sequestration provisionally in the hands of the Master of the Supreme Court, for the benefit of the creditors thereof, such order to be returnable on 12th April, 1907.

Now therefore We command you, CHRISTO CHRISTOPHIDES, hereinbefore styled the Defendant, that you appear before Our Judges of the Court of the Eastern Districts of the Cape of Good Hope at Grahamstown on Friday, April 12th, 1907, at 10 o'clock in the forenoon, to show cause why your Estate should not be adjudged to be sequestrated in the hands of the Master of the Supreme Court, for the benefit of the creditors thereof.

Witness: The Honourable John Gilbert Kotze, Judge President of the Court of the Eastern Districts of the Colony of the Cape of Good Hope at Grahamstown, this 8th day of March, 1907.

TELEPHONE EXCHANGES.

THE following revised Regulations in regard to Telephone Exchanges are published for general information. (*Vide* Government Notices No. 177 and No. 259, dated 20th February and 10th March, 1904, respectively.)

WM. A. COLLARD,
Assistant Treasurer.

ANNUAL RENTALS.

14. The annual rental covers the use and maintenance of a telephone and batteries and a line to the Exchange, as well as Exchange services during such hours as the Exchange is open for public business. Extension-bells, extra receivers, switches, indicators, or other special form of apparatus, may be fitted up at the request of a renter, at rates to be ascertained on application.

APPARATUS.

18. All apparatus, batteries, etc., supplied by the Post Office are the exclusive property of the Postmaster-General, and may be removed by him on cessation of service from whatever cause, for which purpose his officers are to be permitted free access to the premises of the renter. Such officers are also to be granted admission at all reasonable times for inspection purposes. Renters are responsible for all damage to the apparatus, batteries, etc., allotted to them arising from any cause whatsoever, reasonable wear and tear excepted, and in the event of

the destruction or damage by fire or other accident of any part of the telephone plant within a renter's land or premises, the renter shall pay to the Postmaster-General the value of any instrument or lines so destroyed or damaged. Interference with the lines or instruments of the Department by unauthorised persons is entirely at the renter's risk. See Regulation No. 28.

More expensive forms of apparatus for private offices, residences, etc., can be supplied. Diagrams can be inspected and additional cost ascertained on application.

IDENTIFICATION OF TELEPHONE EMPLOYEES.

28. All employees of the Post Office Department who require access to a renter's premises on telephone business are provided with identification certificates signed by the local Engineer in charge. Renters are enjoined in their own interests to require the production of this authority before allowing any alleged Post Office employee to obtain access to private premises.

HIGH POTENTIAL CURRENTS.

34. The Government will not be responsible for any damage or injury caused to the renter's premises by any high potential current not emanating from the premises of the Postmaster-General which may be conveyed to the renter's premises by means of the telephone line. All reasonable precautions will, however, be taken by the Postmaster-General to prevent damage or injury from this cause.

- (b) The yearly payment in respect of such licence shall be equal to one-twentieth the price fixed for the land so held, together with one-twentieth of the survey and other expenses on such land, and shall be paid in advance.
- (c) The deposit paid at the time of application shall be in discharge of the amount due on the next first day of January or July, as the case may be.

- (d) The person to whom such licence is issued shall, within six months of the issue of his licence, personally occupy the land allotted to him, and shall continue so to occupy such land except as herein after provided, for the term of five years, or until he shall obtain a title to such land.

8. No land held under the provisions of this Act shall be transferable during the currency of the licence mentioned in the clause next preceding.

9. In the event of any failure during the currency of the licence to perform the condition of occupation the Minister may declare the licence absolutely forfeited and the land in respect of which the licence is issued shall revert to Government: Provided that if it is proved to the satisfaction of the Minister that the failure to occupy was caused by drought he may excuse such failure, but such excuse shall not be given for a period of more than twelve months unless such drought continue for a longer period.

10. At the expiration of the five years for which any licence is granted, and if the Minister is satisfied that the conditions therein contained have been duly fulfilled he shall cause to be issued to the licensee a grant of the land held and occupied by him on quitrent tenure subject to the conditions stated in Section Five of Act 15 of 1887, subject to the payment of fifteen annual instalments each of the amount of one-twentieth of the value of the land, together with the value of the survey and other expenses, which shall be a first charge on such land and shall be secured by mortgage in favour of the Government: Provided that in the event of it being proved to the satisfaction of the Minister, who shall require certificates to that effect, that the licensee has after two years of occupation made permanent improvements on the land occupied by him under such licence equal at least to the value of the said land, the Minister may cause to be issued to him a title to the land held or occupied by him, subject to the payment of so many annual instalments of one-twentieth of the value of the land together with the value of the survey and other expenses as shall together with the annual payments made by him in respect of the licence to the said ground make up the whole value, and such annual payments due shall be secured by mortgage.

11. If any instalment shall not be paid within three months of the date on which it is due and payable, an additional sum equal to one-fourth part thereof, by way of penalty, shall be added thereto, and shall, together with the instalment overdue, be recoverable at the suit of the Government in any competent Court.

These farms will be allotted subject to the condition that the Licensee shall not be allowed during the continuance of his licence to cut down or destroy any forest timber, or poles growing upon the land except as shall be reasonably necessary for domestic purposes, and for the beneficial occupation of the land, but not for sale.

5. MINISTERIEELE AFDEELING VAN COMMISSARIS VAN PUBLIEKE WERKEN.

[269.]

[1907.]

Kantoor van den Commissaris van
Publieke Werken,
Kaapstad, 12 Maart 1907.

HET onderstaande Memorandum over de Besproeiings
Wet, No. 32 van 1906, wordt ter algemeene kennis-
name gepubliceerd.

C. REYNOLDS,

voor Secretaris van Publieke Werken.

BESPROEING WET No. 32 VAN 1906.

Het hoofddoel van de Wet gepasseerd gedurende de
voorafgaande Zitting van het Parlement en goedgekeurd
op 21 Augustus 1906, was om de statuut Wetten be-
treffende Besproeiing te consolideeren met zoodanige
amendementen als de ondervinding heeft noodig be-
wezen.

De Wet is verdeeld in acht deelen:—

- Deel I.—Voorloopig.
- Deel II.—Gebruik van stroomen.
- Deel III.—Rivier Distrikten en Besturen.
- Deel IV.—Besproeiings Distrikten en Besturen.
- Deel V.—Water Hoven.
- Deel VI.—Servituten.
- Deel VII.—Besproeiings Leeningen.
- Deel VIII.—Algemeen.

DEEL I.—VOORLOOPIG.

Onder dit deel is voorziening gemaakt voor het her-
roepen van vroegere Besproeiings Wetten, en dat alle
Regulaties uitgevaardigd onder vorige Wetten van
kracht blijven totdat zij worden herroepen of andere
Regulaties onder deze Wet daarvoor in de plaats worden
gesteld.

De volgende woorden zijn ook omschreven:—"Minis-
ter," "Stroom," "Aanhoudende Stroom," "Tijdelijke
Stroom," "Eigenaar," "Oever Land of Eigendom,"
"Oever Eigenaar," "Distrikt," "Bestuur," "Gouverne-
ments Besproeiings Werk," "Persoon," "Regulatie,"
"Direkteur," "Hoogere Hof." Daar het noodig is
hierna te verwijzen naar de Regulaties betreffende Aan-
houdende en Tijdelijke Stroomen, is de volle tekst van
de omschrijvingen hierbij gevoegd.

"Aanhoudende Stroom" beteekent een natuurlijke
stroom welke in een gewoon seizoen vloeit gedurende het
grootste deel van het jaar in een bekende en bepaalde
bedding, en waarvan het water gebruikt kan worden voor
het gezamenlijke gebruik van eever eigenaars. Mits
dat een stroom die voor een gedeelte slechts voldoet aan
deze beschrijving, geacht zal worden een "aanhoudende
stroom" te zijn alleen voor wat betreft zoodanig deel.

"Tijdelijke Stroom" beteekent een stroom die geen
aanhoudende stroom is, en waarin de natuurlijke opper-
vlakte draineerings water vloeit van de landen van meer
dan één oever eigendom. Mits dat een stroom niet be-
schouwd zal worden een tijdelijke stroom te zijn boven
het hoogste punt van zijn loop waar het natuurlijke
oppervlakte draineerings water van de landen van meer
dan één oever eigendom zich vereenigen, of voor zoo-
danige lager gelegen deelen van zijn loop als een aan-
houdende stroom kunnen genoemd worden.

Uit bovenstaande zal men zien dat deze twee soorten
stroomen verschillende wijzen van behandeling vereischen
voor het gebruik en verdeling van hun water.

DEEL II.—GEBRUIK VAN STROOMEN.

Dit deel der Wet handelt hoofdzakelijk met het ge-
bruik van water van aanhoudende en tijdelijke stroomen,
vergunning voor gebruik van overtollig water van tijde-
lijke stroomen en het afleiden van overtollig water van
een aanhoudenden stroom over een waterscheiding. Het
gebruik van water van aanhoudende stroomen is van
tijd tot tijd van rechtswege beslist en de definitie in de
Wet vermeld in het eerste deel is om zoo te zeggen ge-
lijkluidend met de uitspraken van het Hoog-Gerechtshof.

Wegens de omstandigheden van het land, echter, kan
een stroom aanhoudend zijn voor een zeker deel van zijn
loop en niet aanhoudend in een ander deel, derhalve is
er bepaald geworden dat een stroom welke langs een ge-
deelte van zijn loop voor het grootste deel van het jaar
in een bekend en bepaalde bedding loopt en welks water
gebruikt kan worden voor het gezamenlijke gebruik van
oever eigenaars, geacht zal worden een aanhoudende
stroom te zijn voor zoo ver slechts als zoodanig deel be-
troffen is.

Onder artikel 6 van de Wet is het bepaald dat iedere
oever eigenaar, onderworpen aan alle bestaande rechten

van andere personen en aan de bepalingen dezer Wet,
recht heeft op het redelijk gebruik voor besproeiings
doeleinden van het water van een aanhoudenden stroom
waaraan zijn eigendom grenst.

Vóór het passeeren van deze Wet was er om zoo te
zeggen geene bescherming gegeven door Wet aan ge-
bruikers van vloed water in de Kaap Kolonie of aan
mensen die te doen hadden met tijdelijke stroomen.
Zoodaals reeds is gezegd zijn de toestanden wat betreft
het gebruik van water uit een rivier die slechts dertig
of veertig dagen vloeit, geheel anders dan die van een
rivier die het grootste gedeelte van het jaar vloeit.
Eenige kunstmatige bedding waarin water een zeer
kortten tijd vloeit, moet, om hetzelfde area te besproeien
als een bedding waarin water bijna voortdurend loopt,
van veel grootere water-dragende capaciteit zijn, en
duurder zijn om te bouwen. Gewoonlijk zijn water-
bergingswerken ook noodig om het water te gebruiken
van een tijdelijke stroom. De rechten van oever eigen-
aars op het water van tijdelijke stroomen zijn nu duide-
lijke vermeld in Sectie 7 van de Wet.

Onderworpen aan zekere bepalingen en aan de be-
staande rechten van anderen heeft iedere oevereigenaar
het recht het water te gebruiken van een tijdelijke
stroom vloeiende naar of over zijn eigendom, door het
af te leiden op zijn oeverland om dat daarmede te be-
sproeien; en is ook gerechtigd zoodanig water op te
dammen of te bergen voor besproeiing en voor huis-
houdelijke, landbouw, fabriek en drink doeleinden. In
het geval van beide aanhoudende en tijdelijke stroomen
is de hoeveelheid die een eigenaar geoorloofd is te ge-
bruiken onderworpen aan appel naar de Water Hoven.

Het moet echter duidelijk voor oogen worden ge-
houden dat onder de bepalingen der Wet er geene be-
moeding is met de rechten van eenig persoon, die door
schenking, servituut of verjaringsrecht eenig recht heeft
op het water van een tijdelijken stroom.

Onder Sectie 9 heeft een Water Hof het recht ver-
lofbrieven te geven voor het gebruik op niet-oeverland
van het surplus water van een tijdelijken stroom nadat
genoeg water is gegeven voor besproeiing, huishoudelijke,
landbouw, fabriek en drink doeleinden op het oever
land.

Speciale aandracht wordt gevestigd op Sectie 10, welke
handelt met eene voorziening om water te leiden uit een
opvang area naar een ander. Water kan echter niet
tot nadeel van de rechten van oever eigenaars worden
weg genomen, en het Water Hof moet op aanvraag het
punt bepalen waar zal worden afgeleid, de lijn van
doorvoer voor het afvoeren van het water gemachtigd
te worden afgeleid, den aard der werken te worden
gebouwd voor het doel, en het bedrag der schadever-
goeding, indien eenige, te worden betaald aan den
eigenaar of eigenaars op of over wiens eigendom de
afleiding en het overbrengen plaats heeft.

Onder Sectie 12 is een eigenaar geoorloofd toegang te
hebben tot een stroom zelfs wanneer de bedding ervan is
veranderd door natuurlijke oorzaken, zoodat hij zijn
vee kan water geven en te verhinderen dat zijn oever-
eigendom rechten geschaadt worden.

Sectie 15 handelt met opmetingen en onderzoek en
voorziening is gemaakt voor het oprichten van meet-
palen om het verschil in de hoogte van water in hoofd-
stroomen te meten, het maken van teekeningen van ver-
schillende stroomen, het verzamelen van feiten en het
maken van opmetingen op eene systematische wijze, heb-
bende van gedetailleerde opmetingen, teekeningen en
begrootingen voor Gouvernements Besproeiings Werken,
ingenieurs hulp aan Water Hoven, Rivier Besturen en
personen die een dispuut hebben over gebruik van water,
het onderzoeken van landen, teekeningen, specificaties
en begrootingen en rapporten in verband met eenig be-
sproeiings schema waarvoor aanvraag gedaan is om eene
Gouvernements leening en onderzoekingen betreffende:—

1. De werking en resultaten van de wetten met be-
trekking tot besproeiing.
2. Het gebruik en de waarde van water in en voor
besproeiing.
3. Het gebruik en plaatselijke geschiktheid van ver-
schillende soorten van kracht en machinerie om
water voor besproeiing op te pompen.

DEEL III.—RIVIER DISTRIKTEN EN BESTUREN.

De noodzakelijkheid heeft men lang erkend van eenige
kontrôle te hebben over het verdeelen van water van
aanhoudende en tijdelijke stroomen, en onder dit deel
dezer Wet is het bestuur en kontrôle van de rivieren
en stroomen der Kolonie, en het toezicht over het ver-
deelen volgens bestaande rechten van hun water, nu
geplaatst in de handen van plaatselijk gekozen lichamen
genaamd Rivieren Besturen, gehopen in technische

aken door professioneele advies geleverd op kosten van het Gouvernement. Alle bevelen of handelingen van deze Besturen zijn onderhevig aan appel naar het Water Hof, voor wiens leiding de Gouverneur, met toestemming van het Hoog-Gerechthof of van het Parlement de grondbeginselen en consideraties kan bepalen waarop water uit aanhoudende en tijdelijke stroomen moet worden verdeeld. De vorming van de Rivier Distrikten is praktisch op de zelfde wijze als is bepaald voor Besproeiings Distrikten onder de oude Wet No. 8 van 1877.

Ten einde een Rivier Bestuur op te richten kunnen drie of meer oever-eigenaars, recht hebbend het water te gebruiken van een stroom of stroomen en eigenaars zijnde van niet minder dan één-tiende deel in oppervlakte van het overland besproeid uit of van de eigendommen grenzende aan den stroom of stroomen binnen de grenzen van het voorgestelde distrikt, een schriftelijke petitie zenden aan den Commissaris van Publieke Werken voor het oprichten van een Rivier Distrikt. Het feit dat de petitie is aangeboden moet worden bekend gemaakt door den Minister in de *Gazette* en in een courant circulerende in het voorgestelde distrikt.

Zoodra eene petitie is ontvangen zal een Ingenieur gezonden worden om onderzoek te doen aangaande de petitie en zal zoo spoedig mogelijk het resultaat rapporteren van zijn onderzoek aan den Minister, die vóór het area te proklameeren als een Rivier Distrikt zich moet overtuigen dat de eigenaars van meer dan tweederden van het totale area van de eigendommen grenzende aan de stroomen binnen het voorgestelde Distrikt of de eigenaars van meer dan twee-derden van het overland besproeid uit de stroomen binnen zoodanige eigendommen, die ook in ieder geval meer dan twee-derden van het totale aantal eigenaars vertegenwoordigen, ten gunste zijn van het oprichten van het distrikt.

De grenzen van een Rivier Distrikt kunnen van tijd tot tijd worden veranderd op de zelfde wijze als noodig is voor het vormen van een nieuw distrikt.

Het overzicht over handelingen betreffende het bewaren van stroomen en het opvangen afleiden en gebruik van hun water in een Rivier Distrikt, is gevestigd in een Rivier Bestuur bestaande uit niet minder dan drie en niet meer dan elf zooals de Gouverneur kan bepalen door proclamatie in de *Gazette*.

Een Rivier Bestuur moet zoo spoedig mogelijk na verkiezing een schedule opstellen van het belastbaar area van zoodanig eigendom in het distrikt, acht te worden gegeven op het aandeel of volume water der stroomen binnen het Distrikt, hetgeen de eigenaar recht heeft te gebruiken op het eigendom en op het aantal morgen dat onder gewone omstandigheden en met behoorlijke voorzorg tegen watervermorsing, goed kon worden besproeid in den loop van een jaar door dat aandeel of volume onafhankelijk van het aantal morgen werkelijk besproeid.

De basis van stemmen voor leden van een Rivier Bestuur is:—

- (a) De belastbare area van zijn eigendom, indien de belastbare areas van het distrikt vastgesteld zijn;
- (b) Het bezit van oever-eigendom en diens valuatie respectievelijk, indien de belastbare areas niet vastgesteld zijn.

De valuatie van een eigendom is de laatste schatting van het eigendom voor Afdeelsraad doeleinden in ponden sterling.

Iedere eigenaar van eigendom waarvan de belastbare area niet minder is dan één morgen kan stemmen bij eene verkiezing van leden van het Bestuur. Mits dat:

- (1) Indien een eigendom gezamenlijk geëigend wordt door twee of meer personen elk van wie niet werkelijk een aparte en bepaalde deel van het eigendom bewoont, dan indien het totaal getal morgen in de belastbare area van het eigendom niet minder is dan het totale getal van zoodanige personen, mag elk van hen stemmen ten opzichte van een belastbare area gelijkstaande met de totale belastbare area van het eigendom verdeeld door het getal personen; anderszins mogen slechts zooveel van het stemmen als er morgen zijn in het eigendom, maar indien de belastbare areas niet zijn bepaald, indien de totale schatting van het eigendom verdeeld door honderd niet minder is dan het totale aantal van zoodanige personen, zal elk van hen gerechtigd zijn te stemmen op de basis van een eigendom valuatie welke bepaald is door te nemen de totale valuatie van het gezamenlijke eigendom verdeelende het door het getal eigenaars; anderszins mogen slechts zooveel van hen stemmen als er een honderd ponden is in de valuatie van het eigendom en de eigenaars zullen in ieder geval

onderling bepalen en in geschrifte aanstellen zoodanige van hen die alzoo in staat zijn te stemmen.

- (2) Indien het eigendom geëigend wordt door het Gouvernement of door een ingelijfd lichaam zal de persoon, behoorlijk gelast door een speciale volmacht van den Minister of lichaam respectievelijk, gerechtigd zijn te stemmen ten opzichte van dit eigendom, en hij zal stemmen als of hij de eigenaar ware, op dezelfde schaal.
- (3) Een persoon gerechtigd te stemmen ten opzichte van eigendom gelegen in een sub-distrikt zal ten opzichte van dat eigendom stemmen bij de verkiezing van leden voor dat sub-distrikt alleen.
- (4) Geen persoon zal gerechtigd zijn te stemmen, indien en terwijl zijn belastingen onder dit Deel betaalbaar zijn en achterstallig voor drie maanden of meer zijn.

Iedere persoon zijn recht van stemmen uitoefenende zal stemmen op den volgenden schaal indien het belastbare area de basis van stemmen is:—

Hij zal een stem hebben voor iedere vijf morgen of deel van vijf morgen besproeibaar land met betrekking tot hetwelk hij kan stemmen tot 50 morgen, en daarna één additionele stem voor iedere 25 morgen meer; of indien de schatting van het eigendom de basis is van stemmen zal hij een stem hebben voor iedere £500 of deel van £500 van de schatting van het eigendom waarvoor hij recht heeft te stemmen.

Wanneer het blijken zal dat de order of daad van een Rivier Bestuur mogelijk de rechten zal benadeelen van eigendom binnen het Distrikt van een ander Rivier Bestuur of Besturen of wanneer het noodig schijnt dat eene daad behoorde te worden gedaan betrekking hebbend op meer dan een Rivier Distrikt, kan de Gouverneur een Speciaal Rivier Bestuur benoemen bestaande uit een gelijk aantal leden genomineerd door ieder Gewoon Rivier Bestuur betroffen en één lid te worden aangesteld door den Gouverneur; mits dat in geen geval het totale ledental van een Speciaal Rivier Bestuur meer zal zijn dan zeven.

- (a) Een Rivier Bestuur heeft geen macht eenige vervolging in te stellen of te verdedigen met zich voerende eene verklaring van rechten, zonder de toestemming van twee derden van de oever-eigenaars binnen het distrikt, op eene vergadering speciaal voor dat doel bijeengeroepen.

Eenig persoon die zich door een order of handeling van een Gewoon of Speciaal Rivier Bestuur geschaad gevoeld, kan aanspraak om verlichting doen bij een Water Hof of ander bekwaam Hof.

- (b) Een Rivier Bestuur kan met de toestemming van de belastingbetalers gegeven op een Vergadering speciaal voor het doel bijeengeroepen, belastingen heffen te worden genoemd Rivier Belastingen voor het bestrijden van alle onkosten beloopt of te worden beloopt door het Bestuur.

De belastingen zullen worden geheven op ieder eigendom hebbende een belastbaar area in het Distrikt, en zullen betaalbaar zijn door den eigenaar van het eigendom.

Een Rivier Bestuur kan met de toestemming van drie vierden van de eigenaars van belastbare eigendom in het distrikt, die eigenaars zijn van niet minder dan twee derden van de belastbare area erin eene schriftelijke petitie aanbieden aan den Gouverneur, verzoekende dat het Bestuur moge bekleed worden met alle en iedere der machten van een Besproeiings Bestuur.

De Commissaris van Publieke Werken kan eenige onkosten betalen beloopt door een Rivier Bestuur voor de doeleinden der Wet gedurende een tijdperk van twaalf maanden vanaf de oprichting van het distrikt, mits dat het totale bedrag aldus betaald niet meer zal zijn dan een honderd pond sterling, en eene begroting van de uitgaven welke het Bestuur van plan is te doen, eerst goedgekeurd zal zijn door den Minister.

De Petities voor de vorming van een Rivier Distrikt behoort in hoofdzaak als in den nagenoemden vorm te zijn. Alle noodige vormen zullen echter onder de Regulaties worden uitgevaardigd welke nu worden opgemaakt:—

Kennisgeving.

Voorgesteld Rivier Distrikt.

Hiermede wordt kennis gegeven overeenkomstig Sectie 16 van Wet No. 32 van 1906 dat eene Petitie is aangeboden aan den Commissaris van Openbare Werken, waarvan een afschrift hieronder wordt gepubliceerd:—

DEEL IV.—BESPROEINGS DISTRIKTEN EN BESTUREN.

Er is om zoo te zeggen niets nieuws in dit deel van de Wet. De bepalingen van Wet No. 8 van 1877 zijn opgevolgd en vereenvoudigd waar ondervinding het noodig bewezen heeft.

Eenige drie of meer eigenaars van land die het wenschelijk achten dat er een gezamenlijk stelsel van besproeiing zal zijn, en dat kunstmatige middelen aangewend moeten worden om water te bewaren of te verschaffen, kunnen eene schriftelijke petitie inzenden aan den Commissaris van Publieke Werken, verzoekende dat het area worde gemaakt tot een Besproeiings Distrikt. De personen zoodanige petitie onderteekende moeten de eigenaars zijn van niet minder dan een tiende deel van het land binnen zoodanig area. De petitie moet vermelden de grenzen en grootte ten naastenbij van het voorgestelde besproeiings distrikt en den aard van de werken te worden gebouwd. Het feit dat de petitie is ingezonden zal worden bekend gemaakt in de *Gazette* en in eene courant circuleerende binnen het voorgestelde distrikt. Nadat de petitie ontvangen is, wordt een Ingenieur gezonden naar het Distrikt om onderzoek te doen aangaande den inhoud der petitie en de benaderde grootte van het land besproeibaar door de voorgestelde werken op ieder eigendom in het voorgestelde Distrikt te bepalen en op eenig ander eigendom dat volgens zijne meening kan worden ingesloten. Na onderzoek wordt een Rapport gezonden aan den Minister die, indien hij het goed dunkt, en indien overtuigd dat de eigenaars van minstens twee-derden van het totale area van de besproei-bare landen binnen het voorgestelde distrikt, ten gunste zijn van de oprichting van het Distrikt, aanbevelen zal aan den Gouverneur om het area te verklaren tot een Besproeiings Distrikt.

De grenzen van een Distrikt kunnen van tijd tot tijd veranderd worden na onderzoek gedaan is door een Ingenieur en de toestemming van eigenaars verkregen is als of de eigendommen moesten worden geproklameerd tot een distrikt.

Alle handelingen, zaken en dingen betrekking hebbend op een koop, bouw en onderhoud van het noodige reservoir of andere besproeiings of draineerings werken zijn gevestigd in een Besproeiings Bestuur bestaande uit zoodanig aantal leden niet minder dan drie en niet meer dan zeven als de Gouverneur per proklamatie kan bepalen.

De bepalingen aangaande de kwalificatie van kiezers en schaal van stemmen en het opmaken der kiezers lijst, zijn bijna dezelfde als voor Rivier Besturen. In het geval van Besproeiings Besturen echter, is het belastbare area de eenige basis van stemmen, en het maximum aantal stemmen toegestaan voor eenigen kiezer is beperkt tot tien voor eenigen enkelen kandidaat.

Een Besproeiings Kiezers Lijst moet worden gemaakt en jaarlijks herzien worden en een afschrift van de Lijst moet gehouden worden in het Kantoor van den Secretaris voor inspectie, vrij van onkosten, door eenig belanghebbend persoon.

Een Besproeiing Bestuur mag belastingen heffen te worden genoemd Besproeiing Belastingen, voor het dekken

van alle onkosten beloopt of te worden beloopt door het Bestuur; en zoodanige belastingen zullen jaarlijks geheven worden door het Bestuur tegen eene eenvormige som per morgen besproeibaar land. Eene schedule van het besproeibaar area van ieder eigendom binnen het Distrikt moet worden gemaakt door het Bestuur zoo spoedig mogelijk na de verkiezing.

Een Besproeiings Bestuur kan bij wijze van leening eenig geld opnemen dat noodig is door het Bestuur voor het doel der Wet. Alvorens een voorstel om eene leening op te nemen, gelegd wordt voor een vergadering van het Bestuur, moet niet minder dan een-en-twintig dagen kennis gegeven worden van het voorstel aan ieder lid, en geene leening kan worden opgenomen behalve met besluit van het Bestuur waarop twee-derden minstens van de leden tegenwoordig zijn.

Een Bestuur kan met goeakeuring van twee-derden van de eigenaars van belastbaar eigendom binnen het area van het Bestuur een schriftelijke petitie inzenden vragende om te worden bekleed met eenige of alle machten van een Rivier Bestuur.

De volgende Besproeiings Distrikten opgericht onder de Wet van 1877 bestaan nog:—

Breede Rivier (Robertson) geproklameerd 17 Januari 1898.

Nonna Rivier (Worcester) geproklameerd 12 Mei 1905.

Nuy Rivier (Worcester) geproklameerd 31 Mei 1905.

Alle werken ondernomen door deze Besturen zijn uitgevoerd door middel van leeningen onder de Besproeiings Wetten.

De vormen van applicatie voor het oprichten van een Besproeiings Distrikt en voor een Gouvernements Leening zijn hierbij gevoegd.

Kennisgeving.

Hiermede wordt bekend gemaakt, overeenkomstig Sectie 43 van de Besproeiings Wet No. 32 van 1906 dat eene Petitie, waarvan een afschrift hieronder is vermeld, aangeboden is aan den Commissaris van Publieke Werken.

DEEL V.—WATER HOVEN.

Water Hoven werden eerst opgericht onder de bepalingen van Wet No. 40 van 1899, en zeer weinig veranderingen zijn ingevoerd onder deze Wet. De voornaamste amendementen hebben betrekking op de oorspronkelijke jurisdictie van Water Hoven in water dispuuten (Sectie 68), de benoeming van Speciale Water Hoven (Sectie 66), de onderwerping van zaken in dispuut aan den Directeur vóór zij voor de Water Hoven worden gebracht, en de machten van Water Hoven in het schenken van applicaties voor

(a) Servituten van Waterleiding.

(b) Servituten van Bewaring.

(c) Servituten van Grens.

behandeld in Deel VI. der Wet.

De nagenoemde Water Hoven zijn opgericht onder de bepalingen van Wet No. 40 van 1899 en Proclamatie No. 53 van 1903, nam. :—

1. No. 144, 1903, Uniondale Area en Water Distrikt.
2. No. 188, 1903, Oudtshoorn Area en Water Distrikt.
3. No. 189, 1903, Stutterheim en Komgha Area en Water Distrikt.
4. No. 195, 1903, Humansdorp Area en Water Distrikt.
5. No. 231, 1903, Bedford, Fort Beaufort, Stockenström en Victoria Oost Area en Water Distrikt.
6. No. 267, 1903, King William's Town Area en Water Distrikt.
7. No. 280, 1903, Oost Londen Area en Water Distrikt.
8. No. 49, 1906, Willowmore Area en Water Distrikt.
9. No. 82, 1906, Kimberley en Barkly West Area en Water Distrikt.
10. No. 233, 1906, Worcester en Robertson Area en Water Distrikt.
11. No. 234, 1906, Prince Albert Area en Water Distrikt.
12. No. 250, 1906, Laingsburg Area en Water Distrikt.
13. No. 349, 1906, Ladismith Area en Water Distrikt.
14. No. 464, 1906, Barkly Oost Area en Water Distrikt.
15. No. 412, 1906, Riversdale Area en Water Distrikt.
16. No. 413, 1906, Swellendam Area en Water Distrikt.

Voorziening wordt nu gemaakt voor de oprichting van Water Hoven in de verschillende Distrikten der Kolonie.

De eerste appél zaak tegen de beslissing van een Water Hof kwam uit het Distrikt Ladismith. De applicatie werd gemaakt voor eene redelijke verdeling van het water van een aanhoudende stroom genaamd de Hoeko. Er was een appél naar het Hoog-Gerechtshof tegen de uitspraak van het Water Hof van Ladismith welke werd afgewezen met kosten, en de openings opmerkingen van den Hoofd Rechter bij het geven zijner uitspraak zijn interessant, en worden voluit weergegeven. Hij zeide:—

“Dit is het eerste geval van een appél tegen eene uitspraak van een Water Hof onder de Wet van 1899, en ik ben verplicht te zeggen dat na de procedures nauwkeurig te hebben overgegaan, dat dit Water Hof op eene kalme, judicieele en in ieder opzicht voldoende wijze is te werk gegaan. Er werd ten tijde aan getwijfeld of Water Hoven een succès zouden zijn of niet, en ik moet zeggen dat als alle Water Hoven hierna hun werk zoo doen als dit Water Hof, er iedere reden is om tevreden te zijn met de Wet. Mijne eigen meening was dat het jammer was dat de oude Landdrost en Heemraden afgeschaft zijn, omdat zij voldoende werkten. Zij waren op de hoogte met de plaatselijke omstandigheden en veel beter in staat recht te doen tusschen de partijen dan een rechter die de zaak vluchtig hoort op rondgang, of zelfs het Hoog-Gerechtshof, hoorende de zaak hier wat meer uitgebreid. Ik zeg dat dit Water Hof, zooals het mij schijnt, wel de plaats heeft ingenomen van de oude Landdrost en Heemraden, en de zaak zeer goed heeft geleid.”

De Gouverneur kan in eenig area een Water Hof aanstellen om dispuuten te hooren en te beslissen in verband met het gebruik en toe-eigening van water. Onder de Wet van 1899 zijn de grenzen van het Water Distrikt gewoonlijk dezelfde als van een Magistraats Distrikt.

Een Water Hof bestaat uit een Resident Magistraat hebbende jurisdictie over het geheel of een deel van het Water Hof Distrikt, die zit met twee assessors gekozen uit eene lijst van Water Hof Assessors, niet minder dan 10 of meer dan 25, gekozen na consultatie met den Afdeelingstraad van iedere Afdeeling, waarvan eenig deel in het Distrikt is gelegen.

Iedere Assessor moet land bezitten en bewonen en moet zijn eigen land in het Distrikt hebben gecultiveerd, moet de bekwaamheden hebben noodig voor een Afdeelings Raadslid, en mag niet jonger dan dertig jaar zijn.

De Assessors worden uitgezocht door den Registrateur volgens Regulaties, en tegen hen kan worden geohjce teerd op een of meer der volgende gronden:—

5. MINISTERIEELE AFDEELING VAN COMMISSARIS VAN PUBLIEKE WERKEN.

1. Bloedverwantschap binnen den vierden graad van eenige der partijen, of van een persoon die een geldelijk belang heeft in het resultaat van de applicatie.
2. Hebbende direkt of indirekt enig belang in het resultaat der zaak.
3. Hebbende tevoren opzettelijk zijne meening gegeven over de applicatie.
4. Persoonlijke vijandschap tusschen een of elk der Assessors en eenige partij.

Eenige objecties met bewijzende verklaringen worden dan gelegd voor den Magistraat van het Water Hof Distrikt die beslist of hij de objecties zal toelaten of van de hand wijzen, en zijne beslissing is finaal.

Een Speciaal Water Hof wordt opgericht ten einde zaken of disputen te hooren betreffende twee of meer afzonderlijke Water Hof Distrikten.

Ten einde onkosten, ongemak en vertraging te verhinderen werd het artikel gevende Water Hoven oorspronkelijke jurisdictie in water disputen, speciaal in de Wet opgenomen, en is zoo belangrijk dat de volle tekst hieronder wordt gegeven:—

„Behalve met het consent van alle partijen tot een dispuut omtrent waterrechten, zal geen Hof, ander dan een Water Hof, oorspronkelijke jurisdictie hebben in het hooren en beslissen van zoodanig dispuut: en geen proces van eenig persoon te dagvaarden om zich te verdedigen tegen eenige eisch een kwestie van waterrechten insluitende zal uitgaan van eenige van de Hoogere Hoven behalve waar de verweerders schriftelijk daartoe toegestemd hebben: mits dat niets in dit artikel vervat zal de jurisdictie gegeven door eenig artikel van deze Wet aan eenige van de Hoogere Hoven, in appél of anderszins, of in gevallen waar de bovengenoemde toestemming verkregen is.”

Behalve de kwestie van applicaties toe te staan voor servituten waarmede wordt gehandeld in het volgende deel en zaken reeds besproken, zijn de meer voorname plichten en machten van Water Hoven:—

1. Verlofsbriefjes te geven voor het gebruik van water van tijdelijke stroomen.
2. Op aanzoek te bepalen de plaats of plaatsen hetzij op land grenzend aan een stroom of op land hooger op in de bedding van een stroom gelegen waar een eigenaar geacht zal worden recht te hebben op het gebruik van water, en den aard en omvang van zoodanig gebruik de rechten van andere eigenaars behoorlijk in acht nemende.
3. Op aanzoek te onderzoeken, beslissen en bekend maken in het geval van een stroom wiens aard niet bepaald is door een bekwaam hof, of zoodanige stroom een standhoudende of tijdelijke stroom is. Tegen zoodanige uitspraak kan geappelleerd worden in een Hooger Hof binnen drie maanden door een belanghebbend persoon.

DEEL VI.—ONTEIGENING VAN LAND EN VERKRIJGING VAN SERVITUTEN.

Onder Secties 82, 33 en 84 kan land onder zekere beperkingen onteigend worden voor een Staat besproeiings werk of binnen een Besproeiings Distrikt voor het werk van een Besproeiings Bestuur.

Land mag echter niet onteigend worden voor private Besproeiings werken.

Secties 86 tot 92 handelen uitsluitend met het verkrijgen van Servituten. Een persoon hebbende een recht op, of op het gebruik van water, of zijnde gerechtigd toezicht en beheer te hebben op het gebruik van water, wenscht het gebruik daarvan te vermeerderen voor besproeiingsdoeleinden of voor het gebruik van zijn vee, of voor eenig ander nuttig gebruik zal onder deze Wet gerechtigd zijn *tijdelijk of eeuwigdurend* de volgende servituten te eischen, te weten:—

- (a) Servituut op een waterleiding.
- (b) Servituut op bewaring.
- (c) Servituut op grens.

Servituut van Waterleiding zal bestaan uit het recht om te occupeeren voor en in verband met het loopen van water zoodanig land, het eigendom van een ander, als noge noodig zijn voor het doel, insluitende het recht om zoodanige werken te bouwen als noodig zijn voor het leiden van water over, onder of langs een ander besproeiings werk.

Servituut van Bewaring zal bestaan uit het recht om te occupeeren, door overstroommen met water het land van een

ander door middel van een dam gebouwd op het land van den persoon die het recht verlangt. Het servituut zal insluiten het recht van doorgang over het ondergeschikte erf langs de grens van, en door, de area onderworpen aan het servituut, ten einde werken te onderhouden, schoon te maken, slijk en kreupelhout of vuil weg te nemen, of een dergelijk doel noodig voor het behoorlijk genieten van zoodanig servituut.

Servituut van Grens zal bestaan uit het recht om door een dam of wal de bedding van een rivier en de oevers grenzende daaraan het eigendom van een ander, te occupeeren, als noodig mag zijn voor de dam of wal.

Een eischer om eenige van deze servituten zal daarvan kennis geven in geschrifte aan den eigenaar van het land waarop hij voornemens is het servituut te krijgen, beschrijvende de lijn van doorgang waarlangs, of de plaats waar, of de wijze waarop, hij voornemens is het water te leiden, bewaren of weg te keeren, of werken te bouwen; de werken die hij wenscht op het land te bouwen; de compensatie die hij aanbiedt, en het tijdperk waarvoor hij wenscht het servituut te genieten.

Indien de eigenaar niet binnen een maand na de beteekening van de kennisgeving toestemt in de voorstellen van den eischer, mag de eischer aanzoek doen bij het Water Hof voor een beslissing van de verschillende zaken in dispuut tusschen hem en den eigenaar.

Het Water Hof kan de applicatie toestaan met wijzigingen en onderworpen aan zoodanige voorwaarden als hem billijk zullen toeschijnen, de schadevergoeding bepalen te worden betaald voor het recht van servituut, indien het land gepacht is de schadevergoeding bepalen te worden betaald aan den pachter voor eenige schade die hij lijden zal door het uitoefenen van het servituut, indien het land onder verband is het aandeel bepalen te worden betaald aan den hypotheekgever als vermindering van zijn verband, of de applicatie weigeren.

Bij het bepalen van het bedrag der compensatie, kan het Water Hof zoodanig bedrag als redelijk zal geacht worden, aftrekken wegens de voordeelen die de eigenaars of pachter ontvangt wegens het servituut.

De compensatie voor een tijdelijke servituut zal *een jaargeld zijn gelijkstaande met de rente waarde*, zoo juist mogelijk te weten gekomen, van het land werkelijk te worden geoccupeerd door het werk wanneer voltooid, tezamen met jaarlijksche compensatie voor eenige werkelijke ongerief en verlies dat mag geleden worden wegens het uitoefenen van het servituut.

De compensatie voor een permanente servituut zal zijn *een kontante som gelijkstaande met de gemiddelde marktwaarde*, zoo juist mogelijk te weten gekomen, van het land werkelijk te worden geoccupeerd door het werk, *tezamen met een jaargeld* als compensatie voor werkelijk ongerief en verlies dat geleden mag worden wegens het uitoefenen van het servituut, of, in plaats van dit jaargeld, *een som gelijkstaande met twintigmaal het jaargeld*.

Een tijdelijk servituut kan veranderd worden in een eeuwigdurend servituut wanneer de applicant betaalt aan den eigenaar van het ondergeschikte erf zoodanige compensatie als zal worden overeengekomen, en indien geene compensatie kan worden overeengekomen, kan aanzoek gedaan worden aan het Water Hof voor het bepalen der compensatie.

Een servituut vervalt indien het werk voorgesteld te worden uitgevoerd niet voltooid is en het water niet wordt gebruikt binnen drie jaren van den datum van de order van of binnen het tijdperk door het Water Hof bepaald.

DEEL VII.—BESPROEIINGS LEENINGEN EN SCHENKINGEN ALS HULP.

Leeningen kunnen worden geschonken aan Besproeiings Besturen of aan private eigenaars van land.

De vorm van applicatie voor een leening door een Besproeiings Bestuur is behandeld in Deel IV. der Wet. De waarborg te worden aangeboden door een Bestuur moeten de belastingen zijn hefbaar onder de Wet, of zoodanig andere securiteit als door den Gouverneur zal worden goedgekeurd.

Leeningen aan private eigenaars kunnen gemakshalve in drie klassen worden verdeeld:—

- (a) Leeningen niet te bovengaande £500.
- (b) Leeningen meer dan £500 en tot £25,000.
- (c) Leeningen over £25,000.

De securiteit te worden aangeboden door een private eigenaar moet een hypotheek op vast eigendom zijn. Onder de oude Besproeiings Wetten kon het Gouvernement alleen eene leening geven op securiteit van *het verbeterde land*. Onder deze Wet kan dubbele borg-

tocht worden aangenomen en eenig vast eigendom in het bezit van een applikant kan als waarborg voor de leening worden aangenomen.

Leening niet te bovengaande £500.

Wanneer eene leening niet grooter is dan £500 en het bedrag der leening tezamen met eenige bestaande hypotheken onder drie-vierde van de Afdeelingsraad schatting van het eigendom is, is een Ingenieur's certificaat meldende dat het werk uitgevoerd is overeenkomstig goed-gekeurde plannen en specificaties, niet noodig.

De Minister kan echter eene schatting verlangen gemaakt door twee beëdigde schatters in plaats van de Afdeelingsraad valuatie.

Indien de verhoogde valuatie van het land in aanmerking wordt genomen, zijn goedgekeurde plannen en specificaties noodig, en het bedrag der leening tezamen met bestaande verbanden kan niet meer zijn dan tweederde der valuatie.

Leeningen van meer dan £500 en tot £25,000.

Wanneer de applicatie voor eene leening van meer dan £500 is, of de vermeerderde waarde van het werk in aanmerking is genomen, moet de Directeur rapporteeren aan den Minister dat de applikant de werken voornemen is te bouwen op eene sterke en duurzame wijze en overeenkomstig plannen, begrotingen en specificaties door hem goed-gekeurd.

Leeningen £25,000 te bovengaande.

Indien de aanvraag voor eene Leening van meer dan £25,000 is, en voor eene langer tijdperk dan 30 jaar is de voorafgaande toestemming van het Parlement noodig, zoo wel als het rapport van den Directeur dat de applikant de werken voornemens is te bouwen op eene duurzame wijze en overeenkomstig met plannen, begrotingen en specificaties door hem goedgekeurd.

Het tijdperk van 30 jaar genoemd in Sectie 103 (2) der Wet voor de terugbetaling der leening is het maximum tijdperk dat geschonken kan worden zonder de goedkeuring van het Parlement, en zal alleen worden toegestaan op de meest permanente soort van werken zooals metselwerk, dammen en muren, aardwerk, kanalen, enz. De tijd zal korter zijn voor minder duurzame werken naar evenredigheid van hun aard en waarschijnlijke duurzaamheid.

In het geval van pompen of andere machinerie is het gewoonlijk slechts van 10 tot 15 jaar.

Volgens Artikel 111 der Wet heeft de Commissaris van Publieke Werken de macht speciale vrachtprijzen te bepalen voor het vervoer over Gouvernements Spoorwegen van zoodanige goederen of materialen als gebruikt zullen worden voor besproeiings doeleinden in de Kaap Kolonie.

In verband hiermede wordt de aandacht verzocht op Gouvernements Kennisgevingen No. 949 van 1904 "Spoorweg rabat op Vervoerprijs van Materialen gebruiken bij besproeiings werken," en No. 17 van 1907, "Voorgestelde Spoorweg Rabat op olie gebruikt als brandstof voor besproeiings doeleinden."

De nagenoemde tabel wijst de jaarlijksche som aan betaalbaar in half jaarlijksche helften, noodig om terug te betalen een leening van £100 met rente tegen 3½ per cent. binnen de volgende tijdperken:—

De voorwaarden van de verpachting zijn als volgt:—

Een jaar huur zal aan den Civielen Commissaris op den dag der verpachting betaald worden, en als de pacht-tijd meer dan een jaar zal zijn, zal de gereedelijke betaling van de huursom vooruit voor het volgende jaar of de volgende jaren door goedgekeurde borgen verzekerd worden: mits echter de Civile Commissaris twee jaar huur vooruit mag ontvangen, in welk geval genoemde borgstelling niet noodig is.

2. De Regeering behoudt het recht de pacht te eindigen, mocht het dienstig geacht worden den grond te verkoopen of andere omstandigheden het te eeniger tijd noodig of dienstig maken, op twee maanden kennisgeving; en in zulk een geval zal de huur, betaald voor een nog niet afgelopen deel van het loopende jaar, aan den huurder terugbetaald worden.

5. De Regeering neemt niet op zich eenige bakens aan te wijzen. De beschrijving van het stuk grond zal op den pachttag gegeven worden, en de huurder zal daarop verwacht worden de uitgestrektheid van het door hem gehuurde land te vinden.

6. De huurder zal bij het vervallen of anderszins eindigen van den huur, geen aanspraak hebben op eenige vergoeding voor verbeteringen aangebracht gedurende den huurtijd, maar deze zullen het eigendom der Regeering worden.

7. De huurder zal alle bestaande verbeteringen op den grond gedurende den huurtijd in goeden staat moeten houden en die in goeden staat afleveren, maar zal niet gerechtigd zijn tot eenige vergoeding daarvoor.

8. De huurder zal de pacht niet overdragen of den grond of eenig deel daarvan onder verhuren, of eenige gebouwen daarop, zonder dat eerst de schriftelijke vergunning der Regeering verkregen is.

9. De huurder zal zijn pacht geheel en volstrekt verliezen op het breken van eenige hem bindende voorwaarde.

10. De Regeering behoudt zichzelf het recht voor om het aantal personen te beperken, die op den hierbij verhuurden grond mogen wonen gedurende het bestaan van de pacht, en om op aanbeveling van den Afdeelingsraad na behoorlijk onderzoek ingesteld met medeweten van den huurder, hetzij zoodanig aantal personen te verwijderen als zij te veel moge oordeelen, of de pacht nietig te verklaren als haar billijk onder de omstandigheden moge voorkomen.

11. Het bewonen van grond onder deze huur zal niet beschouwd worden *bona-fide* occupatie te zijn onder de bepalingen en voor de doeleinden van artikel 20 van Wet No. 40 van 1895.

Andere voorwaarden mogen op den koopdag genoemd worden.

De zegels die volgens Wet 20 van 1884, aan het huur kontrakt moeten gehecht worden, zullen vrij van onkosten door de Regeering aan den huurder verschaft worden.

LEAVE REGULATIONS FOR THE CAPE MOUNTED POLICE.

Leave of Absence.

(a) Leave of absence may be granted by Divisional Inspectors, subject to the exigencies of the Service, for periods not exceeding three days at one time. All such leave will be entered in the Monthly Returns rendered to the Commissioner and will be treated as casual leave not counting against the annual privilege.

(b) The following leave of absence on full pay may be granted by the Commissioner to all ranks, provided adequate and satisfactory provision is made for the discharge of all duties without extra cost to the public.

After 1 year's service and 3 weeks in every year.
up to 3 years' service ... 3 weeks in every year.

After 3 years' service ... 6 weeks in every year.

(c) Under similar conditions as to discharge of duties, 3 months' vacation leave may be granted by the Commissioner to all ranks who have completed 3 years' service, providing no leave has been obtained under Section (b) during the two years immediately preceding. If any member of the Force has obtained leave during such two years he may then only be granted leave to the extent of the difference between 3 months and that already granted during the same period.

All leave in excess of 3 months must be submitted for the approval of the Governor through the usual channel.

(d) After seven years' service vacation leave may be granted to any member of the Force on the same conditions as to discharge of duties provided for in paragraph (b) for any period not exceeding the excess of the total vacation leave which might have been granted during the preceding five or lesser number of years, deducting therefrom any periods of leave granted during the same years.

(e) No member of the Force to whom vacation leave is granted under preceding paragraphs shall receive full salary within any period of two years for more than three months of his absence from his duties, and shall receive half-salary during the remainder of such absence; but if he shall have had no leave of absence within the preceding six months and not more than four weeks' leave of absence within the preceding five years, he may obtain three months' leave on full pay.

(f) In no case shall vacation leave be granted for a longer period than six months, the calculation shall be made on a lesser number than five when to the advantage of the applicant, and all leave without pay shall be excluded from such calculation.

(g) When an Officer to whom leave is granted occupies Government Quarters, his *locum tenens* shall, in case such a course is absolutely necessary in the public interests, be entitled to occupy such quarters, if available.

(h) When an Officer on leave is receiving less than his full salary and allowances the amount deducted may be held available to cover the cost of performance of his duties during his absence, subject to the approval of the Minister.

(i) Special leave of absence may be granted by the Governor to any member of the Force irrespective of his length of service in cases of serious indisposition, or of urgent private affairs, if it shall be proved that such leave is absolutely necessary.

When such special leave of absence is granted to a member of the Force on the ground of "urgent private affairs" any ordinary vacation leave which may be granted may be extended on the same conditions by a period not exceeding three months, during which additional period the person may receive half-salary.

(j) In cases of "serious indisposition" a Medical Certificate must be furnished on the form of application for leave.

(k) In cases of "urgent private affairs" the nature of such urgent affairs must be stated.

(l) Leave of absence for any period exceeding one month may not be granted to any member of the Force who proposes to retire at or within six months of the termination of such leave.

(m) When special leave is granted on the ground of "serious indisposition" to any member of the Cape Mounted Police, the period (including any vacation leave granted within the preceding two years) shall not exceed twelve months, and the person obtaining such leave may receive such salary during his absence from duty as may be determined, provided that he shall not receive full salary for a longer period than six months within any period of two years, or more than half-salary for the remainder of such leave.

(n) When leave of absence is necessary for the recovery of a member of the Force from severe bodily injury occasioned without his own default while engaged in the discharge of his duty the period shall not exceed twelve months, and the person obtaining such leave may receive such salary during his absence from the duties as may be determined by the Governor, but such salary may not exceed his full salary, nor may it be drawn for a longer period than twelve months within any period of two years.

(o) In the event of any member of the Force being admitted to hospital on account of wounds received on active service such period will not count as leave.

(p) Should any member of the Force, entitled to ordinary vacation leave, be compelled to proceed on sick leave on medical certificate, he shall not thereby forfeit his right to such vacation leave, provided that the limitations to pay during leave prescribed by the preceding paragraphs shall not be disturbed.

(q) Leave to members of the Force applying for discharge by purchase will not be granted except under special circumstances, which must receive the approval of the Minister.

(r) Not more than 10 per cent. of the Non-Commissioned Officers and privates of a Division will be permitted to be absent on leave from a Division at any one time.

(s) Satisfactory arrangements for the care and maintenance of horses and for due preservation of equipments of men on leave will have to be made on the responsibility of the Officers granting such leave, without extra cost to the public.

1. The Competitions to take place during the months of May and June, on such day as the Commanding Officer of the respective Corps may select; and are open to Cadet Corps armed with Martini-Enfield Carbine or Cadet Companies of Volunteer Corps who were in existence on the last day of the year preceding that in which the competition is being held.
2. Cadets who do not fulfil the following conditions are ineligible to shoot as members of a team.
 - (a) They must belong to the Corps for which they shoot, must have earned full Capitation Grant during the half-year immediately preceding the one in which the Competitions take place; and must be under 20 years of age.
 - (b) In the case of Corps connected with Educational Institutions, every member of the team must, at the time of firing be a *bona-fide* member of such Institution in full attendance at its classes.
 - (c) Masters, although members are ineligible, as are also Officers of Cadet Companies of Volunteer Corps.
3. Once firing for the Competition has commenced it must be continued without intermission until it is completed.
4. Firing must take place at different ranges in due sequence, commencing at the shortest range and finishing at the longest.
5. Uniform must be worn by Corps in possession of it, full, or undress, at the discretion of the Commanding Officer.
6. A team will be disqualified in which any Cadet is allowed to shoot who does not fulfil the conditions in paragraph 2, unless under special sanction from the Commandant-General, Cape Colonial Forces, a relaxation of that rule, in some special individual case, has been obtained through the Staff Officer for Cadets, Cape Colonial Forces, previous to the Competition taking place.
7. On the day of the Competition no firing whatever is allowed on the range by any member of the team previous to the actual commencement of the match.
8. The position at all ranges will be any Military.

9. The only arm allowed to be used is the Martini-Enfield Carbine, with military sights, issued by the Government to the Corps.

10. The Corps whose team of ten representatives respectively score the largest collective number of points at the three ranges will be declared the winner of the prize.

11. Ties will be decided as follows:—

- 1st. By the aggregate range totals, in inverse order, commencing at the longest distance. If still a tie,
- 2nd. By the fewest outers.
- 3rd. By the fewest magpies.
- 4th. By the fewest inners.
- 5th. By the total of each round in inverse order.

12. In the event of only one Corps entering for competition no prize will be given.

13. The practice of persons standing by or near the firer, for the purpose of shading or levelling, is strictly prohibited.

14. No appliance may be fixed for the purpose of shading the sights, and no sight shades, shading or screening from the sun, rain or wind of either the sights or competitors shall be allowed. No handkerchief, strap, or other appliance external to the uniform may be used, and the butt of the Carbine must not be placed inside the tunic.

15. The pull of the trigger is to be equivalent to a pressure of not less than six pounds.

16. One sighting shot at each range is compulsory for each member of the team, the value of which is to be recorded in the register in the column headed "Sighting Shot," but it is not to be carried forward in the column "Total": sighting shots must be the first round fired by each competitor at the respective ranges.

17. Officers Commanding Corps will submit in writing to the Staff Officer for Cadets, Cape Colonial Forces, for approval of the Commandant-General, the full names of duly qualified persons to superintend the shooting, and act as markers: this information must reach Headquarters at least eight days before the Competition takes place, and should a Superintending Officer or Marker, so approved, be unable to carry out the duty on the day fixed for the shooting, the name of the person selected to replace him must be communicated to the Staff Officer for Cadets, Cape Colonial Forces, before the firing begins. If this condition is not complied with, the team will be disqualified unless some very substantial reason can be given for its not having been carried out.

18. The intention of the Corps to compete must be notified to the Staff Officer for Cadets, Cape Colonial Forces, during the month of April, after the end of which month no further teams will be allowed to enter.

19. Any infringement of these conditions will invalidate the claim of the Corps concerned to the prize.

20. One Superintending Officer for each Competition is to be employed to keep the Registers and superintend the competition at firing points, for which a fee of £1 may be claimed.

21. Two markers at a fee of 7s. 6d. per man for each Competition are to be employed, one to check the targets and the marking and keep the register of hits as each shot strikes the target; the other to signal the hits on the target.

22. It is to be clearly understood that the Superintending Officers or Markers must neither be connected with the College or School nor be members of the Corps competing.

23. Printed forms of scoring sheets for the Superintending Officer and Superintending Marker will be supplied, and persons so appointed shall, in each case, comply with the rules contained in the following certificates (which will also be found printed on the Target Registers):—

Certificate of Superintending Marker.

- (a) I certify that I was present during the Competition above recorded.
- (b) That I examined the targets before the firing at them commenced, they were correct in size, cleanly washed out, and free from old hits, the bull's-eyes, inners, magpies and outers were in strict accordance with the regulations laid down in condition 2 (Senior Competition) and conditions 2 and 3 (Junior Competition).
- (c) That I examined the targets after each thirty-two shots or under, and compared the hits thereon with the register, adding or deducting from the total points all differences discovered, which alterations were initialled by myself and the marker at the time the alterations were made, and were signalled to the Superintending Officer at the firing point.
- (d) That I saw the targets after each checking carefully washed out.

2. COLONIAL SECRETARY'S MINISTERIAL DIVISION.

(e) That the hits recorded on this register were put down by me shot for shot as they struck the target, and were correctly signalled by the marker.

Certificate of Superintending Officer at the Firing Point.

(a) I certify that during the Competition the trigger of each carbine was tested by me, and that the pull off was not under six pounds pressure.

(b) That the points recorded were obtained by the Cadets opposite whose name they appear, as signalled from the Marker's Butt, and are the original entries made on the ground during the Competition.

(c) That the firing was conducted strictly in accordance with the conditions laid down.

24. The score of each Corps, duly certified as correct, is to be forwarded to the Staff Officer for Cadets, Cape Colonial Forces, by first post after the Competition takes place, separately, by each Superintending Officer and Superintending Marker.

25. Should a team be disqualified owing to the infringement of any of the conditions, the Superintending Officer and Markers must be paid out of the Corps Funds.

26. The full amount of money granted for prizes is to be funded as the property of the Corps winning them and is to be expended either in the purchase of a piece of plate or in some other way, for the benefit of the Corps generally. In the latter case, authority must be obtained through the Commandant-General, Cape Colonial Forces, before the money is expended. The prize won by a Corps is not to be divided among the members of the team who fired for it, or in the purchase of individual prizes for the members of such team.

27. In addition to the team prizes, a badge will be given to the three Cadets in each Competition making the three highest aggregate scores, whether they belong to the winning teams or not. These badges will be worn on the left forearm of the uniform when in full dress.

IN terms of Section 4, Act 26 of 1891, as re-enacted by Act No. 18 of 1897, it is hereby notified that the following pieces of Crown Land will be offered for Lease, by Public Auction, in front of the Offices of the respective Civil Commissioners, at 10 o'clock a.m., on the dates specified, subject to the Conditions and Stipulations herein-after contained, and further to such Conditions as may be declared on the day of Sale.

At BARKLY EAST, on Wednesday, 3rd April, 1907;
At PEDDIE, on Saturday, 6th April, 1907;
At RIVERSDALE, on Saturday, 6th April, 1907;
At MALMESBURY, on Wednesday, 10th April, 1907;
At HUMANSDORP, on Friday, 3rd May, 1907.

The Land will be let on Lease for any term not less than one year and not exceeding five years, to the highest bidder.

The following are the Conditions of Lease:—

1. One year's rent shall be paid to the Civil Commissioner on the day of Sale, and if the term of the Lease shall exceed one year the due payment in advance of the rent for the subsequent year or years shall be secured by approved sureties; provided that the Civil Commissioner may receive two years' rent in advance, in which case the said security will not be required.

2. The Government reserves the right of terminating the Lease should it be thought expedient to sell the land or other circumstances render it necessary or expedient at any time, at two months' notice; and in such case the proportion of paid rent for any unexpired portion of the current year shall be refunded to the Lessee.

3. Licensed Land Surveyors employed in the survey of Crown or other lands with their assistants and servants, shall have the right of access at any time to any part of the land leased for professional purposes.

4. The right of searching and mining for ores, metals, minerals, or precious stones, is reserved to the Government or to any person authorised by it, save in so far as such right may limit the rights and privileges of the said Lessee in respect of precious stones and minerals, in manner provided by any Act in that behalf.

5. The Government does not undertake to point out any beacons. The description of the Lot will be given on the day of Sale of the Leases, and the Lessee will thereupon be expected to find the extent leased by him.

6. The Lessee shall not be entitled at the expiration or other termination of his Lease, to any compensation for improvements made during the term of the Lease, but they shall become the property of the Government.

7. The Lessee shall be required to keep all existing improvements on the land in good repair during the Lease, and to deliver up the same in good repair, but shall not be entitled to any compensation for the same.

8. The Lessee shall not transfer the Lease nor sublet the land or any portion of it, or any buildings or erections thereon, without the written sanction of the Government first obtained.

9. The Lessee shall wholly and absolutely forfeit his Lease upon the breach of any condition binding him.

10. The Government reserves to itself the right to limit the number of persons who may reside on the land hereby leased during the subsistence of the lease, and, upon the recommendation of the Divisional Council, after due enquiry made with cognisance of the Lessee, either to remove such numbers of persons as it may consider excessive or to cancel the lease as may seem to it equitable under the circumstances.

11. The occupation of land under this Lease shall not be held to be *bona fide* occupation under the provisions and for the purposes of Section 20 of Act No. 40 of 1895.

Other conditions may be declared on the day of Sale.

Ik [A.B.] (voeg in occupatie), wonende te in het Distrikt van, verklaar hiermede plechtiglijk en oprechtelijk dat ik een en twintig jaren oud ben en boven, dat ik deze tegenwoordige aanzoek doe voor geheel mijn eigen gebruik en voorrecht, en niet direkt of indirekt "voor het gebruik of voorrecht van eenig ander persoon hoegenaamd, dat ik niet de eigenaar ben van eenig land, dat ik geen schikking of toestemming gemaakt heb om eenig ander persoon te doen verkrijgen door koop of anderszins, het land in verband met welke deze mijn aanzoek gemaakt is."

Ondertekening van Aplikant.

7. De Minister zal aan den eersten aanzoeker die voldaan zal hebben aan de bepaalde condities voor eenig land onder deze Wet, of in geval van twee of meer aanzoeken voor hetzelfde land aan den aanzoeker bepaald door lot, een licentie geven om het land te houden voor welk aanzoek gedaan werd op de volgende voorwaarden en condities:—

(a) De licentie zal wezen voor vijf jaren, berekend van den aanstaanden eersten Juli, of eersten Januari volgende den datum van licentie, en zal insluiten het tijdperk tusschen den datum van licentie en zulk dag.

8. Geen land gehouden onder de provisiën van deze Wet mag worden getransporteerd gedurende den loop van de licentie genoemd in de clausule voorafgaand.

9. In geval van eenig verzuim gedurende den duur van de licentie om te voldoen aan de condities van occupatie, kan de Minister de licentie verklaren als geheel en al verbeurd, en het land in verband voor welk de licentie uitgereikt is zal naar het Gouvernement terug vallen: Mits dat indien het bewezen is geworden naar de voldoening van den Minister dat het verzuim om te bewonen werd veroorzaakt door droogte, mag hij zulk verzuim verontschuldigen maar zulke verontschuldiging zal niet gegeven worden voor een tijdperk van meer dan twaalf maanden, tenzij zulk droogte aanhoudt voor een langer tijdperk.

10. Op het einde van de vijf jaren voor welke eenig licentie gegeven is, en indien de Minister tevreden is dat de condities daarin vervat behoorlijk zijn volbracht, zal hij laten uitreiken aan de licentiehouder een schenking op het land gehouden en bewoond door hem op erfpacht tenure, onderworpen aan de condities vermeld in Sectie V. van Wet 15 van 1887, onderworpen aan betaling van vijftien jaarlijksche paaimenten, elk van het bedrag van een twintigste van de waarde van het land, tezamen met de waarde van de landmeting en andere onkosten die een eerste last zullen wezen op zulk land, en verzekerd worden door een verband ten gunste van het Gouvernement: Tenzij dat in geval het bewezen is geworden tot bevrediging van den Minister, die certificaten zal noodig hebben te dien effekte, dat de licentie houder na twee jaren van occupatie permanente verbeteringen gemaakt heeft op het land bewoond door hem onder zoodanige licentie ten minste van gelijke waarde van genoemde land, de Minister dan aan hem mag uitreiken een grondbrief op het land gehouden of bewoond door hem, onderworpen aan de betaling van zoo vele jaarlijksche paaimenten van een twintigste van de waarde van het land, tezamen met de waarde van de opmeting en andere onkosten, tezamen met de waarde van de opmeting en andere onkosten, die zullen, tezamen met jaarlijksche paaimenten betaald door hem, in verband van de licentie van genoemde grond, de geheele waarde opmaken, en zulk jaarlijksche verschuldigde paaimenten zullen vast gezet worden door verband.

11. Indien eenig paaiment niet betaald zal wezen binnen drie maanden van den datum op welk het schuldig en betaalbaar is, zal een additioneele somma gelijkstaande aan een vierde deel daarvan bijgeteld worden als een boete, en zal, tezamen met het onbetaalde paaiment, inbaar wezen door gerechtelijke vervolging van het Gouvernement in eenig bevoegd Gerechtshof.

Deze palatsen zullen gealloteerd worden op voorwaarde dat de Licentiehouder niet vergund is gedurende den duur van zijne Licentie, eenig bosch hout of palen groeiende op het land te hakken of te vernielen, behalve zooda als redelijk noodig is voor eigen gebruik, en voor de voordeelige occupatie van het land, doch niet om te verkoopen.

De Teekeningen en Licentie Akten kunnen gezien worden ten kantore van de respektievelijke Civile Commissarissen en ten kantore van den Landmeter-Generaal, Kaapstad.

- (e) He shall cause every such article which may be of such a nature as to be liable to contamination by flies or by dust, dirt, filth, or other noxious matter or thing to be at all times properly and adequately protected from such contamination.

The Health Officer or medical practitioner authorised as aforesaid shall be forthwith informed of such prohibition and shall inspect the food as soon as may be.

Colonial Secretary's Office,
Cape Town, 21st March, 1907.

THE following summary of the Report of the Government Labour Bureau for the month of February, 1907, is published for general information.

NOEL JANISCH,

Under Colonial Secretary.

REPORT FOR FEBRUARY, 1907.

The direct demand through the Bureau was 125 as compared with 144 for the preceding month. A distinct falling-off in the local demand for coloured labourers was observed, and there was a great increase in the number of callers of this class at the Bureau, upwards of 400 offering their services during the month under report.

Difficulty was experienced in securing the services of blacksmiths, boilermakers and fitters for a temporary demand by the engineering trade, and from all accounts it would seem that there is much less competition for vacancies in this branch than has been the case for many months. A slight impetus to trade has resulted on account of the demand from Lobito Bay for manufactured goods and foodstuffs, and a large number of Indian Coolies are under requisition to proceed to this centre for the Benguela Railway construction works.

The number of men sent to definite work was 102, made up as follows:—Building trades, 9; engineering trades, 17; factory workers, 3; clerks, canvassers, salesmen, etc., 7; servants (indoor and outdoor), 14; overseers, warders, gangers, etc., 10; farm hands, 3; labourers, 39; total, 102.

The total number of applications for employment (including renewals) received during the period under report was 324 of which the following is an analysis:—

	EUROPEAN.		COLOURED.	
	Class I.	Class II.	Class I.	Class II.
Artizans, building trades	17	17	10	15
" Engineering "	18	10	1	3
Factory workers (not included in above)	1	8	3	8
Clerks, bookkeepers, storemen, canvassers and salesmen	10	13	2	15
Coachmen, waiters, gardeners, &c.	3	13	18	20
Overseers, warders, and gangers, etc.	4	5	—	—
Farm hands	2	2	—	2
Labourers and handy-men	—	3	10	91
Totals	55	71	44	154
Grand Total	324			

268 applications were received during the preceding month.

The number of registrations by artizans and those with clerical occupations remains practically on the same level as in January, the increased total being due to the many coloured men making application during the first week in the month.

As regards women, the following tabular statement shows clearly the nature of the work carried out during the month:—

Occupations.	Required by Employers.		Applications.		Sent to Work.	
	E.	C.	E.	C.	E.	C.
Clerks and Saleswomen	—	—	1	—	—	—
Domestics	8	7	1	6	—	3
Factory hands, &c.	—	—	—	4	1	3
Totals	8	7	3	10	1	6

The greater number of the applicants were unwilling to engage themselves to sleep at their prospective places of employment or to enter into any agreement for any defined period; and, in point of fact, no applications from young European women without children were received.

Ninety men of a class long out of employment, and unfitted on physical and other grounds for employment, have been repatriated at their own request. It is necessary to emphasise strongly the fact that the Government can give no help in this direction to the ordinary man out of employment. The men selected are only those unsuited for employment, and who would ultimately become a permanent burden on the public.

BUILDING PLANS.—Plans were approved by the various local Municipalities to the value stated hereunder:—Cape Town (11), £3,010. Green and Sea Point, Additions, etc. (5). Maitland, A new Synagogue. Claremont (9), including the erection of three shops, a bakery and a dwelling-house.

INDUSTRIES.—Furniture manufacture—Unsatisfactory; working hours have been considerably reduced. Sheet-metal working—Slightly improved. Milling—Normal. Printing—Improving, but many compositors are only employed on "short time"; machinists and binders are fairly busy. Harness-making—Dull to fair. Tanning—Dull. Cigarette-making (hand)—Decreased activity is noted. Tobacco manufacture—Normal. Jam and confectionery—Quiet. Shopfitting—Normal. Joinery—Dull. Coachbuilding—Very dull. Granite dressing—Greatly improved. Engineering—Slightly improved. Sailmaking—Fairly busy. Plumbing—Dull. Lead-pipe making—Good.

Municipal and other Works in progress.—Work is proceeding in connection with the following schemes, an aggregate of about 325 men being employed: Dock Road Paving, Adderley Street Jetty, Fire Station, Kloof Road, Sanitary Conveniences (2), Mowbray Drainage Works, Wynberg Drainage Works, Maitland Road Making, Kloof Nek Reservoir.

Accepted Tender.—The tender of Messrs. A. B. Reid & Co. (£6,217), for the construction of the foundations for the new Law Courts was accepted.

RELIEF WORKS.

	Married.	Single.	Total
Employed on January 31st	7	152	159
" on February, 28th	8	137	145
Decrease of	—	—	14

The Tokai Forest Camp was closed down on the 25th February, all details being transferred to the Oude Molen Relief Works. The number of women and children dependent, or partly dependent, upon the married men was 27, or 3.37 per family. 10 men arriving in a destitute condition from other centres were sent to the various camps.

Vagrancy.—Convictions during January, 74; February, 30; decrease, 44.

GENERAL SUPPLY AND DEMAND.

Aliwal North.—A number of clerks and salesmen are unemployed. **Beaufort West.**—No building operations are in progress except in connection with the erection of the Public Library. 19 Europeans were supplied with road rations. **East London.**—7 applications for employment were received, and 6 men provided with temporary work. The supply of labour in all branches of trade still exceeds the demand. Plans were passed by the Municipality to the value of £7,447, but only three or four buildings of any importance are under erection. **George.**—A number of labourers are unemployed. **Hay.**—Owing to the higher rates of pay offered in the mining centres, there is a local scarcity of farm hands. **Kimberley.**—1,500 natives are required at the Bultfontein Mine, but the supply of European labour continues to be much in excess of the demand. **Mossel Bay.**—All trades show a distinct improvement. **Port Elizabeth.**—24 men made application, and 12 men were provided with employment at this branch. The Building trade continues dull, and no work of any magnitude is in hand. A large number of shops, dwellings and stores are unoccupied, and the retail trades are in an unsatisfactory state.

The Districts generally do not need special comment as the supply is reported to be equal to the demand. The reports indicate that in the undermentioned centres the supply exceeds the demand, although in the larger towns this excess is gradually decreasing:—

Farming—King William's Town, Steynsburg.
Retail Trades—Cape, East London, Port Elizabeth. *Unskilled Labourers*—Cape, East London, George, Herschel, Kenhardt, King William's Town, Middelburg, Port Elizabeth, Queenstown, Steynsburg, Stockenstrom, Uitenhage.
The only specific demand is for native herds and farm hands at: Beaufort West, Britstown, Calvinia, Clanwilliam, Fraserburg, Hay, Hope Town, Namaqualand, Sutherland, Uniondale, Van Rhynsdorp, Vryburg, Williston; and for ordinary labourers at: Britstown, Calvinia, Clanwilliam, Namaqualand, Prince Albert, Sutherland, Uniondale, Van Rhynsdorp and Vryburg.
There has been an improvement in the demand for labour as follows:—*Building Trades*: Alexandria, Bredasdorp, Mossel Bay, Tullbagh. *Engineering Trades*: Mossel Bay. *Farming*: Mossel Bay. *Retail Trades*: Bredasdorp, Mossel Bay. On the other hand there has been a falling off in the demand for artisans in the building trade at Beaufort West.

The expenses of Survey on each Lot and of the Title Deed (viz., 12s. 3d.) shall be paid to the Civil Commissioner, or Resident Magistrate, or other duly authorised person in that behalf on the day of sale.

The purchaser shall be bound to pass a mortgage bond bearing interest at the rate of four per centum per annum in favour of the Government for four-fifths of the purchase price, unless he shall have paid on the day of sale more than one-fifth thereof, in which case the amount of the bond shall be for the balance of the purchase price, the purchaser having the right to pay off the bond or any portion thereof, not being less than fifty pounds at any time.

If the purchaser be desirous of holding the balance of the purchase money on mortgage as above, he will be required to pass the Bond within thirteen (13) calendar months from the day of sale, failing which, a fine of one shilling will be imposed for every day allowed to pass beyond it, up to eighteen months from the date of sale, after which, should such failure still continue, the balance

of the purchase money, with interest thereon, and the amount of the fine, if any, so imposed, shall forthwith become due and payable, and shall be recoverable in any competent court of law without further notice, and if not paid within one month after the date of judgment, the sale shall become null and void, and payments already made shall be forfeited to the Government.

The General Plan and Conditions of Sale may be seen at the Surveyor-General's Office, Cape Town, and at the Offices of the respective Civil Commissioners and Resident Magistrates.

WATER BOREN ONDER KONTRAKT MET GOUVERNE-
MENTS SUBSIDIE.

DAAR het den Commissaris van Openbare Werken ter oore is gekomen dat vele boeren onder den indruk zijn dat een kontrakt prijs van 16s. per voet voor boren onder Subsidie vastgesteld is door het Gouvernement, wordt speciale attentie verzocht op Sectie 1 van Gouvernements Kennisgeving No. 1084 van 1905. Men zal daaruit zien, dat applikanten en kontrakteurs op hun eigen kosten en risico alle regelingen moeten treffen (inbegrepen de kontrakt prijs per voet) zonder referte naar het Gouvernement; maar moeten hun kontrakt ter goedkeuring overleggen vóór werk inderdaad wordt ondernomen en moeten zich verbinden de Regulaties op te volgen.

De applikanten kunnen daarom als zij willen een kontrakt prijs regelen minder dan 16s. per voet, de verantwoordelijkheid van het Gouvernement zijnde alleenlijk beperkt tot de betaling van de helft van zoodanigen prijs, niet te bovengaande 8s. per voet.

Nog kan worden opgemerkt dat in zekere Distrikten der Kolonie kontrakteurs nu boren tegen prijzen loopende van 9s. tot 12s. per voet.
